# WILDFIRE ACTIVITY STATISTICS

## FOREWORD

The California Public Resources Code directs the State Board of Forestry to designate state and privately-owned forest, watershed, and rangeland as "State Responsibility Area." The department's fire protection mission is to protect natural resources on those lands from damages by wildfire. Land not designated as State Responsibility Area is the protection responsibility of federal or local agencies.

The Department of Forestry and Fire Protection provides direct protection for most State Responsibility Area. The remainder is protected by several agencies and counties under contract with the state. The Department of Forestry and Fire Protection also contracts to provide wildland fire protection on certain federal lands, and also provides contracted life and property protection for numerous local governments.

This annual report is primarily a statistical record of fires and damages on State Responsibility Area, and on other areas which the Department of Forestry and Fire Protection protects under contract.

The Emergency Activity Reporting System became effective July 1, 1989. Fire data is entered into the computer at the fire station level, then forwarded to the ranger unit headquarters via a modem and phone lines for storage in the ranger unit database. A copy of it is then forwarded to Sacramento Headquarters for storage in the state database.

## GLOSSARY

### **CDF**

California Department of Forestry and Fire Protection

### **CONTRACT COUNTY**

Counties that protect State Responsibility Area with their fire departments. For providing that protection the counties receive payment from the state, and CDF support and reinforcement as needed for fire suppression. There are six contract counties: Kern, Los Angeles, Marin, Orange, Santa Barbara, and Ventura.

### **DIRECT PROTECTION**

The area protected by an agency with its own fire protection force.

### **FEDERAL ZONE**

The direct protection area of U.S. Forest Service, Bureau of Land Management, National Park Service, Department of Defense, and Bureau of Indian Affairs. State Responsibility Area within federal zone is protected by federal agencies. For providing that protection the federal agencies receive payment from the state.

### **LOCAL ZONE**

Area in which there is no State Responsibility Area. In general, this is valley floor and desert land. Fire protection in local zone is provided by local government agencies; such as, cities, counties, and fire districts, or by the CDF under contract to local governments.

### **LOCAL RESPONSIBILITY FIRE**

A fire that did not burn or threaten to burn natural resources.

### **STATE RESPONSIBILITY AREA (SRA)**

The area designated by the State Board of Forestry on which the state assumes financial responsibility for protecting natural resources from damage by fire.

### **STATE RESPONSIBILITY WILDFIRE**

A fire in SRA which burns or threatens to burn natural resources.

### **STATE ZONE**

State Responsibility Area and intermingled islands of federal land protected by the CDF and contract counties. Most federal land in state zone is protected by the CDF under contracts with federal agencies.

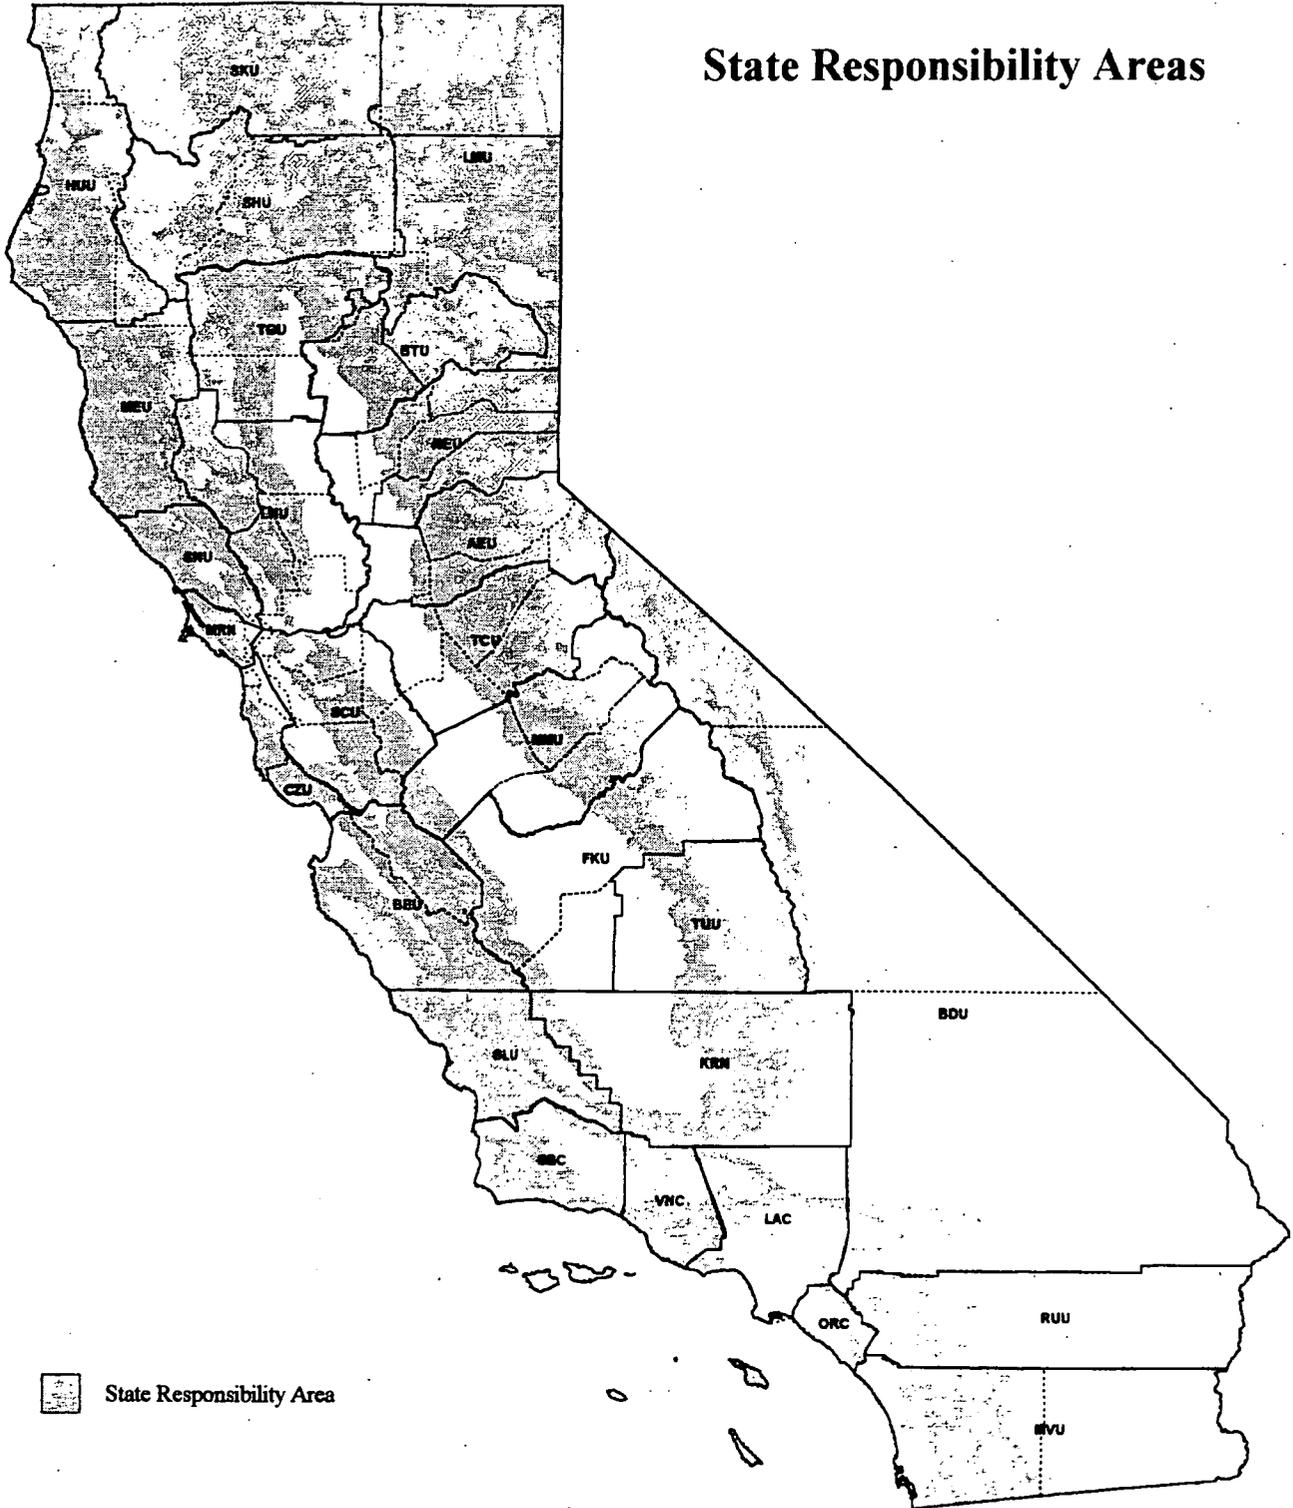

### **WILDFIRE**

Contraction of "wildland fire." This term is used by wildland fire protection agencies to indicate a vegetation fire. Wildfire generally replaces such terms as forest fire, brush fire, range fire, and grass fire.

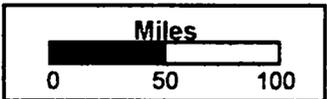

**AREA PROTECTED**

# California

## 1995 FIRE SEASON SUMMARY

Due to a very wet 1994-95 winter and spring, fire season in the State of California was not declared until June 5, 1995. This was the first time in many years that all Ranger Units went on fire season on the same date. Northern and Central California had a mild fire season due to the heavy winter and spring rains, which kept the fuel moistures in the heavy fuels below critical levels most of the season. Southern California experienced a very active fire season particularly in Riverside and San Diego Ranger Units.

CDF handled over 266,000 incidents in 1995 which is an increase of 15% above last year. Of that total, CDF responded to 6,601 vegetation fires which is 8% below last year 7% below the 5-year average. These fires burned over 121,000 acres in CDF direct protection area which is 14% below last year and 12% below the 5-year average.

This is the first year since 1991 that CDF has met their objective to control 95% of all initial attack fires at less than 10 acres in size.

The top five fires in acreage lost in CDF direct protection area:

NAME	RANGER UNIT	START DATE	CDF ACRES BURNED	FIRE FATALITIES	STRUCTURES DESTROYED
Verbinia	Riverside	08/04	23,851	0	2
Sycamore	San Diego	08/29	10,000	0	3

## LARGE DAMAGING FIRE CRITERIA:

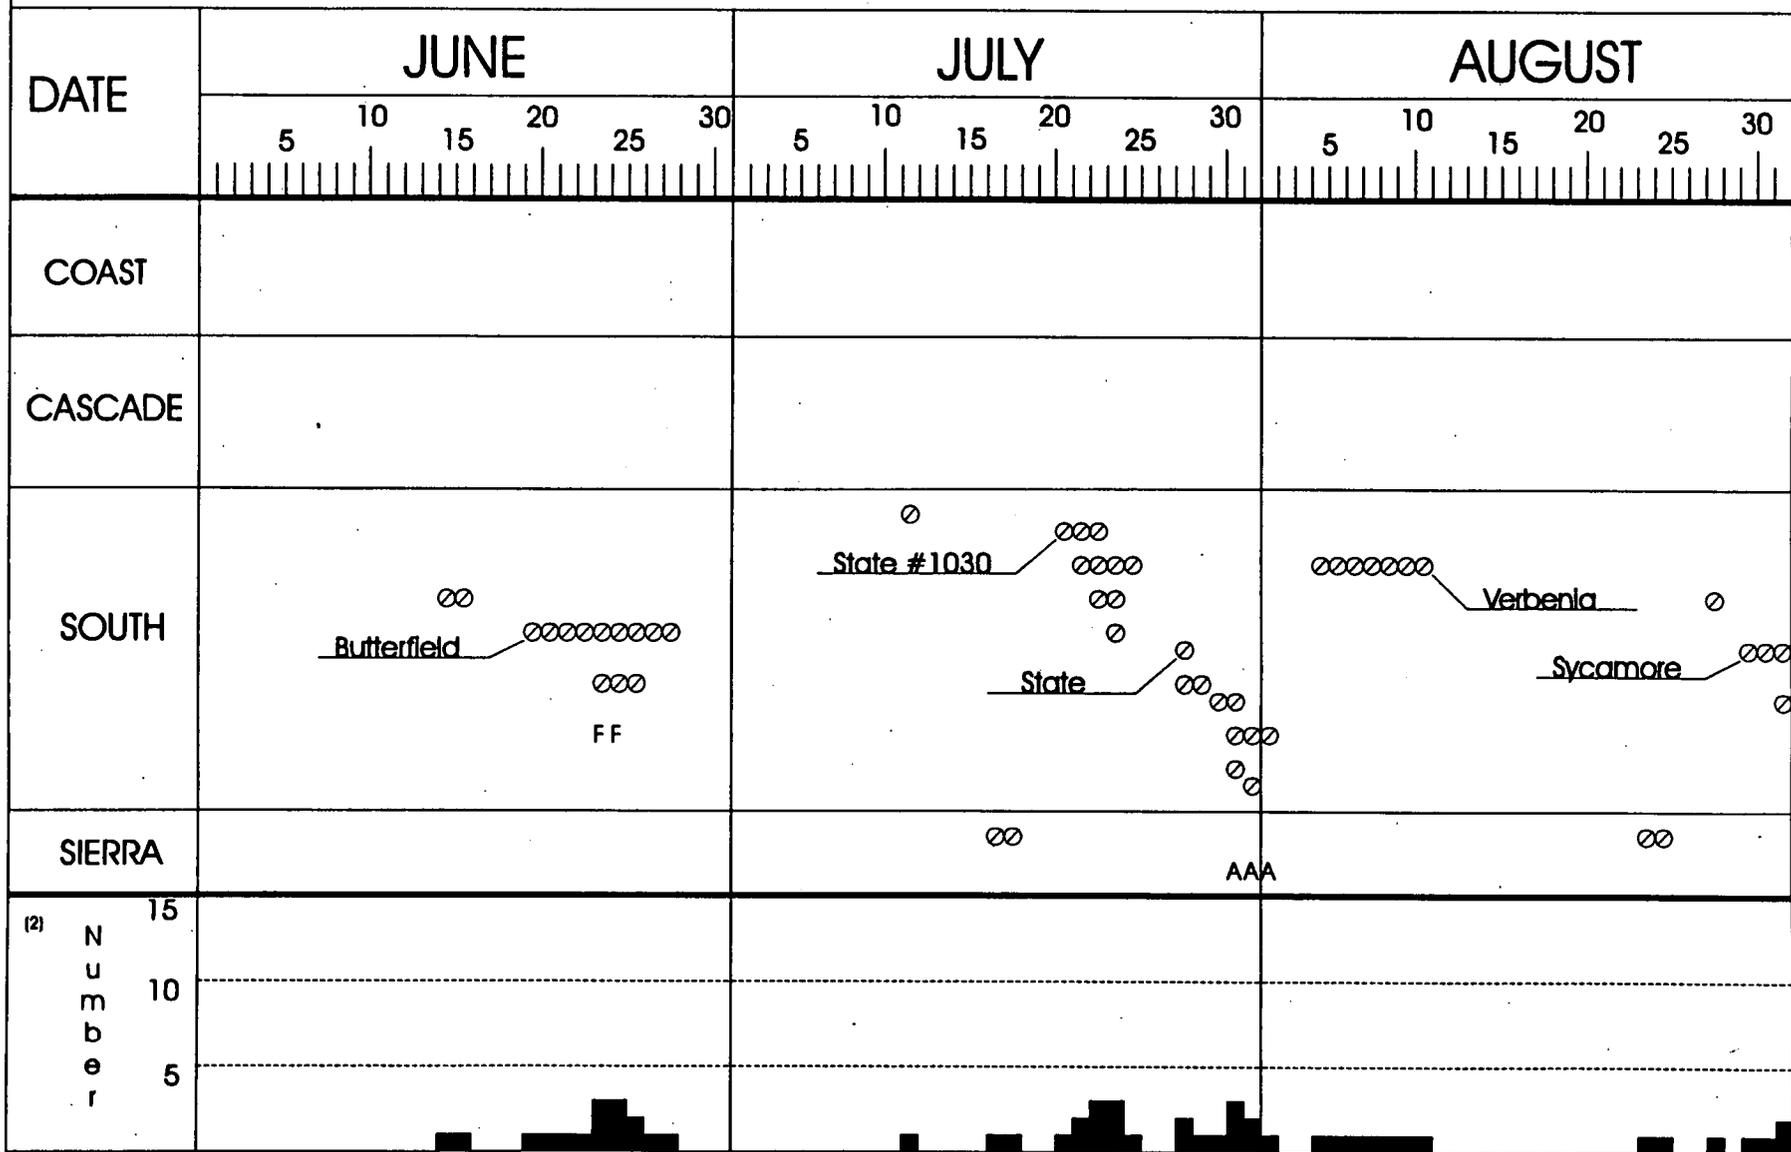

The above list includes fires 300 acres or larger that burned at least:

- 30 acres of timber, or
- 300 acres of brush, or
- 1500 acres of woodland, or
- 1500 acres of grass, or
- 1500 acres agricultural products, or
- 3 or more structures destroyed, or
- \$300,000 or more dollar damage loss

Abbreviations used in this list ARE:

- |                 |   |   |
|-----------------|---|---|
| ORIGIN D.P.A.   | = | The agency on whose Direct Protection Area (D.P.A.) the fire started.   |
| ACRES BURNED    | = | Acres burned in direct protection area of CDF, other agencies, and total area burned.   |
| VEGETATION TYPE | = | Type of vegetation burned   |
| T               | = | Timber  |
| B               | = | Brush   |
| W               | = | Woodland  |
| G               | = | Grass   |
| AP              | = | Agricultural Products   |
| STRUCTURES      | = | Number of dwellings or structures destroyed or damaged. Dwellings and structures destroyed or damaged by fires not included on this list have not been tabulated. |

**FIRE ACTIVITY**

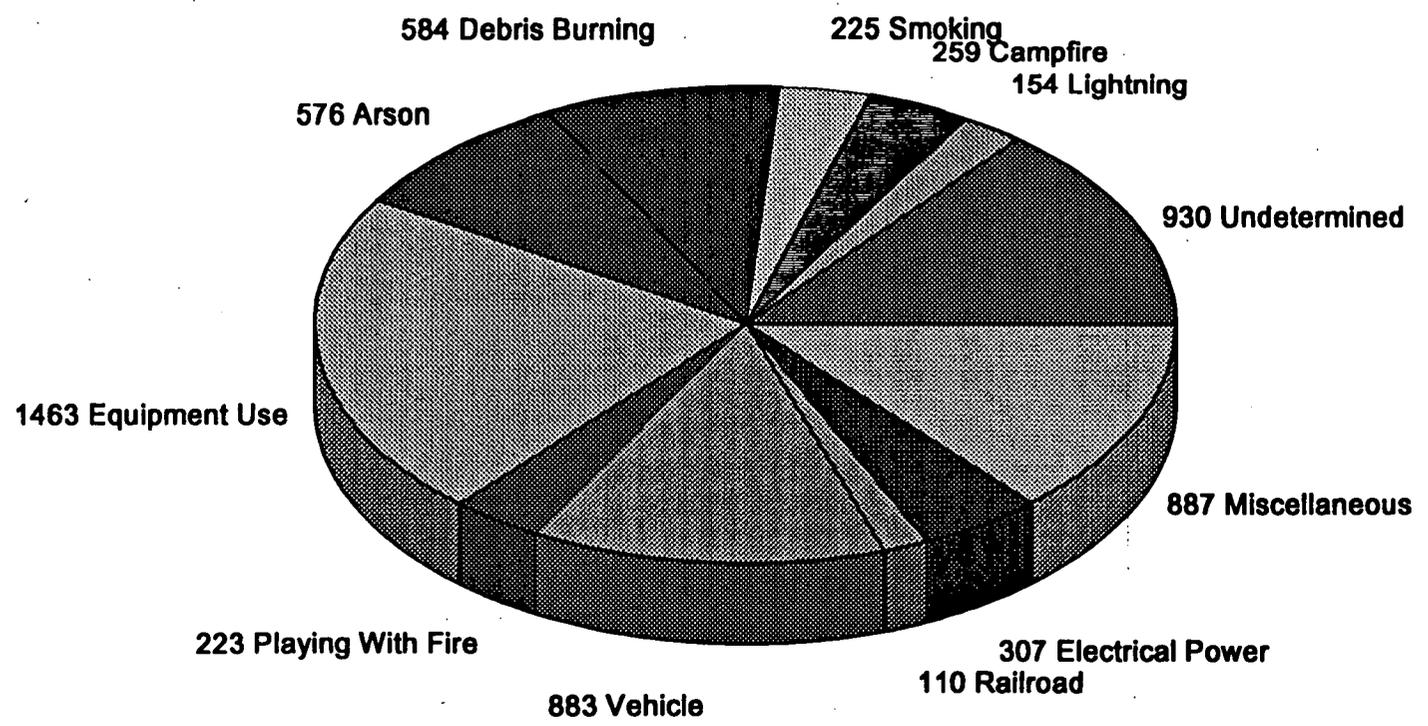

CDF's objective is to - "on a statewide basis, control 95% of all initial attack fires at less than 10 acres in size, and if the fire escapes initial attack, assemble and organize sufficient resources to implement a suitable strategy to control, contain, or confine the fire within economic limits."
