WILDFIRE ACTIVITY STATISTICS

FOREWORD

The California Public Resources Code directs the State Board of Forestry to designate state and privately-owned forest, watershed, and rangeland as "State Responsibility Area." The department's fire protection mission is to protect natural resources on those lands from damage by wildfire. Land not designated as State Responsibility Area is the protection responsibility of federal or local agencies.

The Department of Forestry and Fire Protection provides direct protection for most State Responsibility Area. The remainder is protected by several agencies and counties under contract with the state. The Department of Forestry and Fire Protection also contracts to provide wildland fire protection on certain federal lands, and also provides contracted life and property protection for numerous local governments.

This annual report is primarily a statistical record of fires and damage on State Responsibility Area, and on other areas which the Department of Forestry and Fire Protection protects under contract.

The Emergency Activity Reporting System became effective July 1, 1989. Fire data is entered into the computer at the fire station level, then forwarded via modem and phone lines to Sacramento Headquarters for storage in the state database.

GLOSSARY

CDF

California Department of Forestry and Fire Protection

CONTRACT COUNTY

Counties that protect State Responsibility Area with their fire departments. For providing that protection the counties receive payment from the state, and CDF support and reinforcement as needed for fire suppression. There are six contract counties: Kern, Los Angeles, Marin, Orange, Santa Barbara, and Ventura.

DIRECT PROTECTION

The area protected by an agency with its own fire protection force.

FEDERAL DPA

The direct protection area of U.S. Forest Service, Bureau of Land Management, National Park Service, Department of Defense, and Bureau of Indian Affairs. State Responsibility Area within federal DPA is protected by federal agencies.

LOCAL DPA

Area in which there is no State Responsibility Area. In general, this is valley floor and desert land. Fire protection in local DPA is provided by local government agencies; such as, cities, counties, and fire districts, or by the CDF under contract to local governments.

LOCAL DPA FIRE

A fire that is the responsibility of the local government.

STATE RESPONSIBILITY AREA (SRA)

The area designated by the State Board of Forestry on which the state assumes financial responsibility for protecting natural resources from damage by fire.

STATE RESPONSIBILITY WILDFIRE

A fire in SRA which burns or threatens to burn natural resources.

STATE DPA

State Responsibility Area and intermingled federal lands protected by the CDF. Most federal land in state DPA is protected by the CDF under contracts with federal; agreements with federal forest agencies. (4-party agreement)

WILDFIRE

Contraction of "wildland fire." This term is used by wildland fire protection agencies to indicate a vegetation fire. Wildfire generally replaces such terms as forest fire, brush fire, range fire, and grass fire.

**WILDFIRE STATISTICS
ALL AGENCIES**

2002 FIRE SUMMARY

The fire year 2002 included wildland fires totaling 5,759 and acres burned totaling 112,810. This represents a decrease of 16% less fires than 2001 and 19% below the 5-year average. Acreage numbers reflects an increase of 24% greater than 2001 and 21% below the 5-year average.

San Bernardino, Riverside, and San Diego Units began the spring preparedness on April 15, and these same Units were the last Units to transition into the winter preparedness on December 23.

Acreage would have reflected a decrease if not for the Pines Fire in San Diego Unit. As was anticipated, extreme burning conditions were encountered and if not for the Special Augmentation for 4.0 staffing on all engines and full time staffing on 10 reserve engines in the Southern Region, damage and acres lost would have been much greater.

The top five fires in acreage burned in CDF direct protection area:

NAME	COUNTY	START DATE	CDF ACRES BURNED	FIRE CAUSE	STRUCTURES DESTROYED
Pines	San Diego	08/16	61,690	Powerlines	160

na = not available. Fires that are on other agency direct protection area are assist reports and are not required to complete all the fields the CDF fire report collects.													

LARGE DAMAGING FIRE CRITERIA:

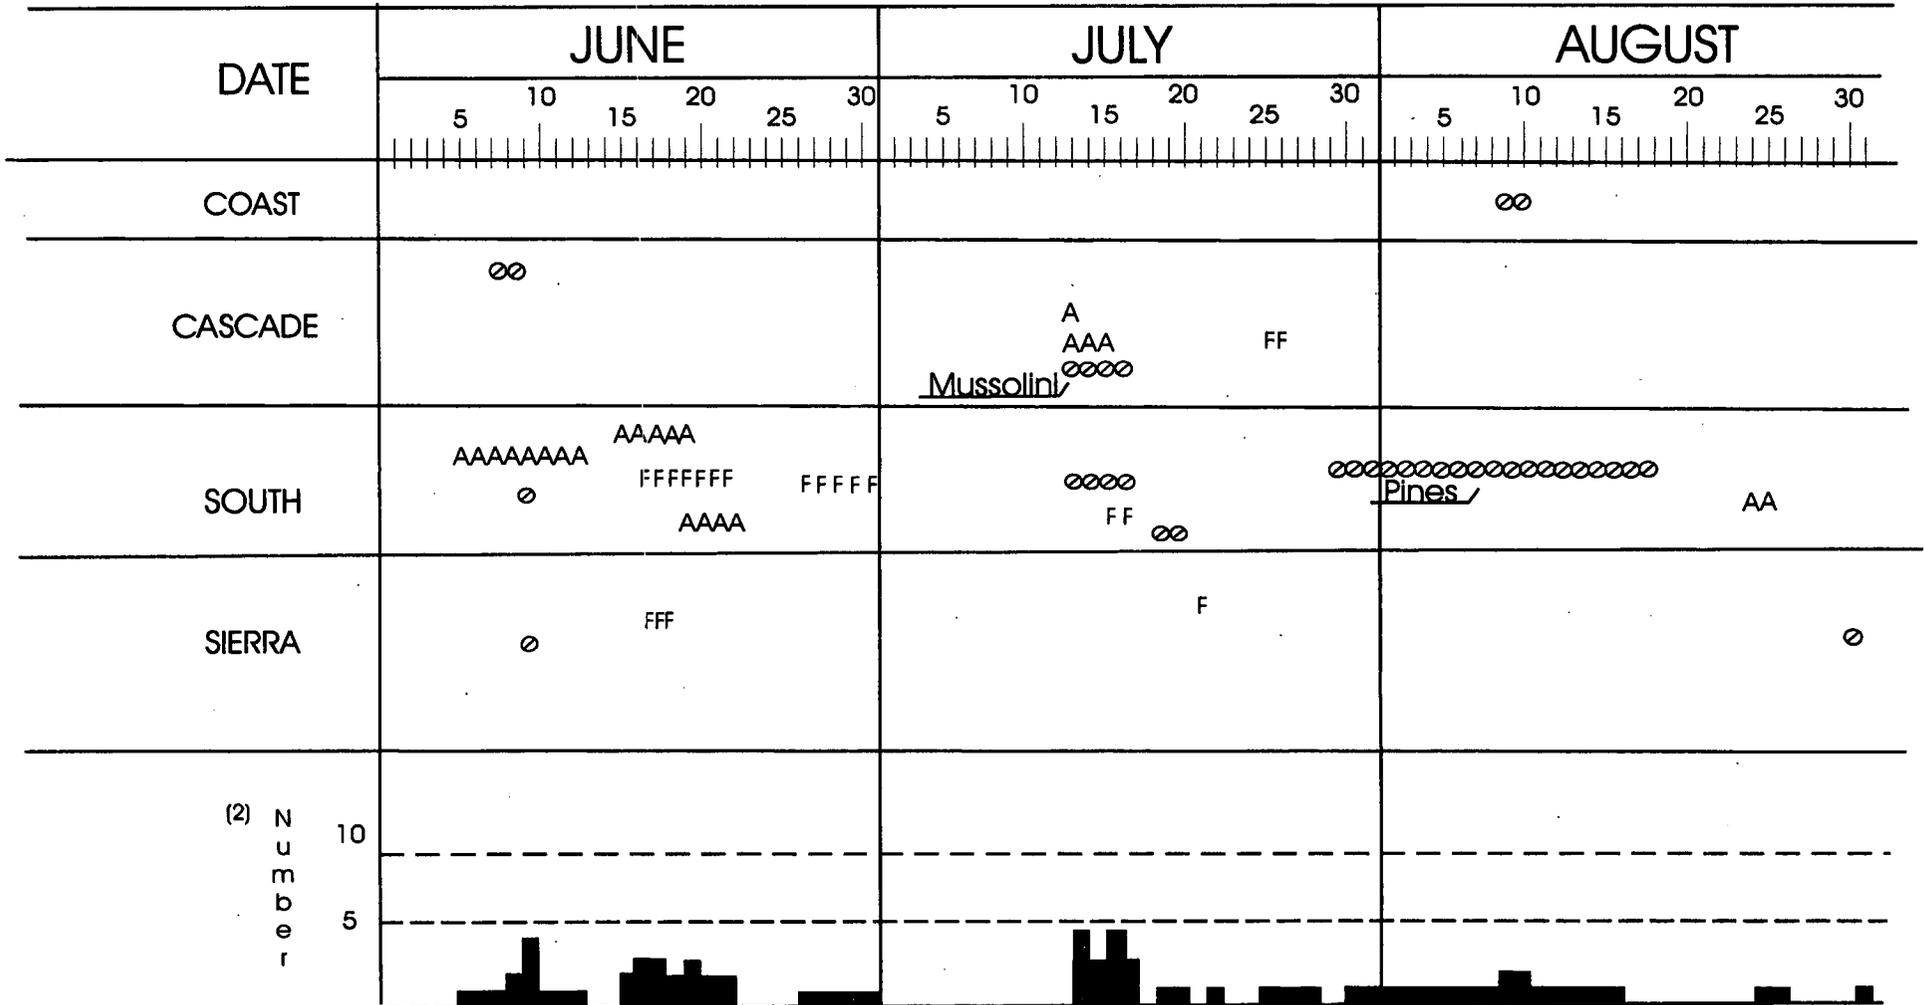

The above list includes fires 300 acres or larger that burned at least:

30 acres of timber or
300 acres of brush or
1,500 acres of woodland or
1,500 acres of grass or
1,500 acres of agricultural products or
3 or more structures destroyed or
\$300,000 or more dollar damage loss

Abbreviations used in this list are:

ORIGIN D.P.A.	=	The agency on whose Direct Protection Area (D.P.A.) the fire started.
ACRES BURNED	=	Acres burned in Direct Protection Area of CDF, other agencies and total area burned.
VEGETATION TYPE	=	Type of vegetation burned
T	=	Timber
B	=	Brush
W	=	Woodland
G	=	Grass
A	=	Agricultural Products
STRUCTURES	=	Number of dwellings or structures destroyed or damaged. Dwellings and structures destroyed or damaged by fires not included on this list have not been tabulated.

GENERAL FIRE CAUSE DEFINITIONS

UNDETERMINED – After investigation the cause of the fire is not known.

LIGHTNING – Fire started by lightning.

CAMPFIRE – Fire started from a campfire. A “campfire” is a fire used for cooking, warmth, lighting, ceremonial, or aesthetic purposes, not within a building, mobile home, or living accommodation mounted on a motor vehicle.” (4103.5 PRC) In addition to the traditional type of open campfires, this category includes lanterns, and cooking and warming stoves used in camping or ceremonial activity, etc. when outside a building, mobile home, or living accommodation mounted on a motor vehicle.

SMOKING – Fire started from smoking tobacco or other material; includes matches and other heat sources used in smoking.

DEBRIS BURNING – Fire started by burning refuse, slash, trash, rights-of-way, or rangeland

Dooryard – Fire started by burning a trash pile, incinerator, etc., usually with a dooryard-burning permit, Form LE-62.

Other – Fire started by project, contract, slash or other burning, usually with a Project Permit Form LE-7, or application and burning permit, Form LE-5.

ARSON – Fire started willfully and maliciously to burn or attempt to burn structures, forest land, or property.

EQUIPMENT USE – Fire started by the use of mechanical or electrical equipment.

Stationary Equipment – Fire started by any mechanical equipment that is stationary (not normally portable).

Portable Equipment – Fire started by any mechanical equipment or tool that is portable (not normally stationary).

Other Equipment – Fire started by any equipment not listed above.

VEHICLE – Fire started by a motorized transportation vehicle.

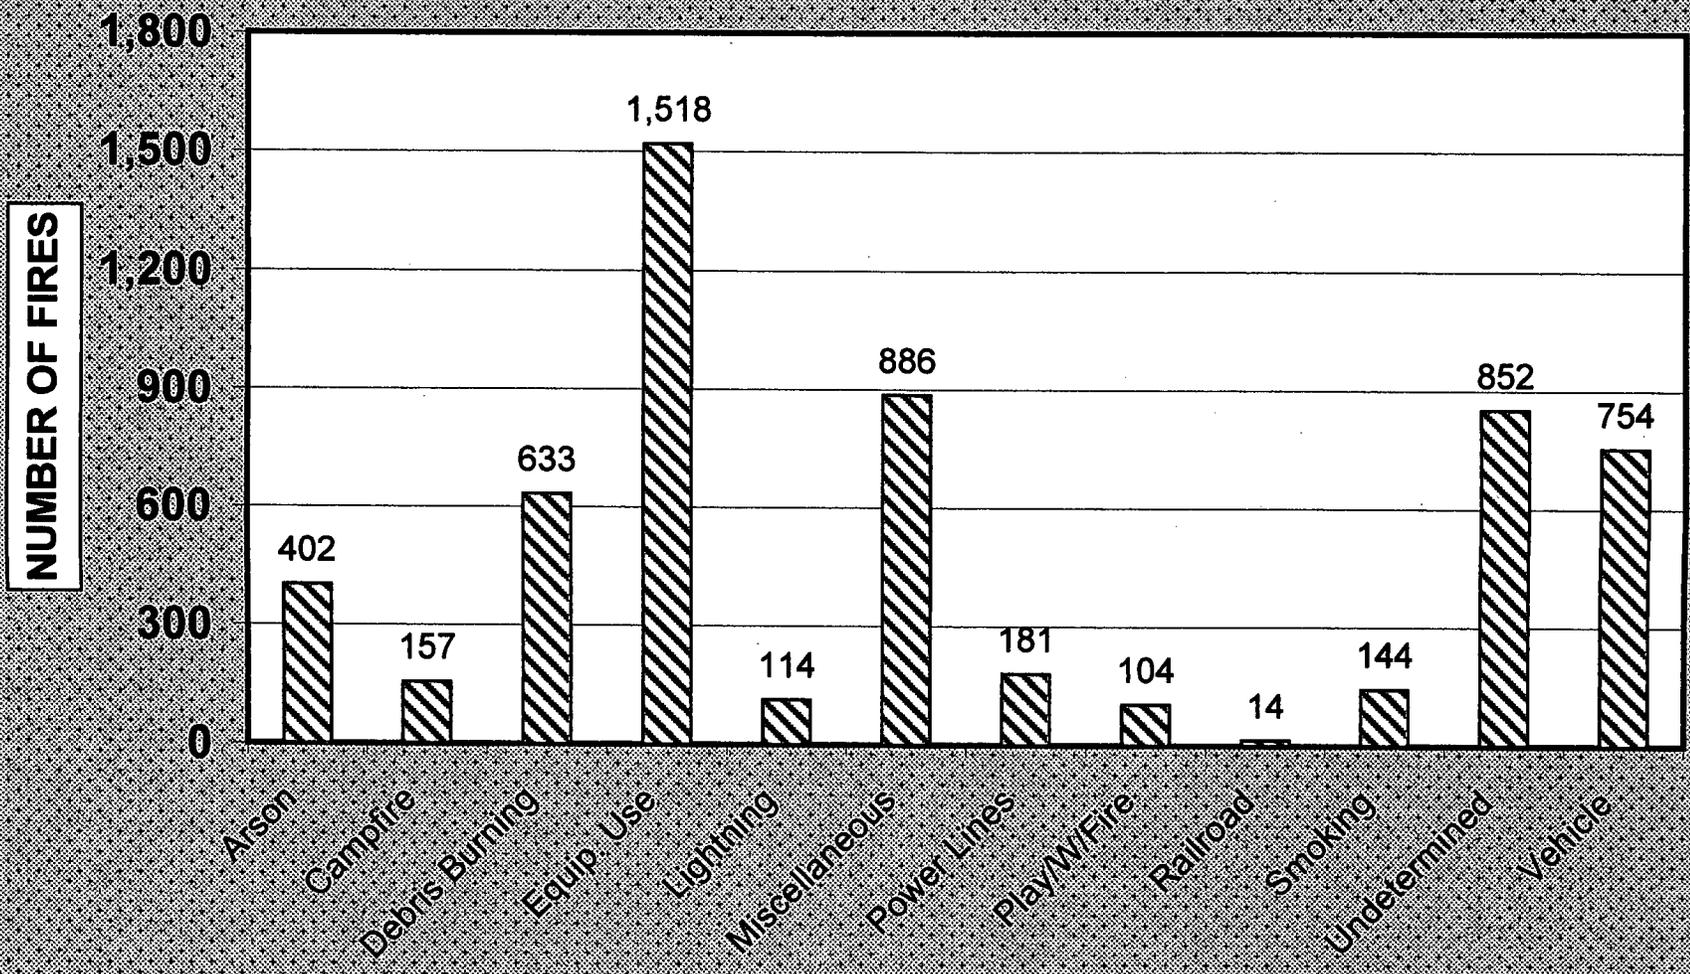

RAILROAD – Fire started by railroad rolling stock, such as speeder, locomotive, or rail car.

ELECTRICAL POWER – Fire started by electric distribution or transmission, powerline – hardware, pole or tower, and conductors, to the user’s meter.

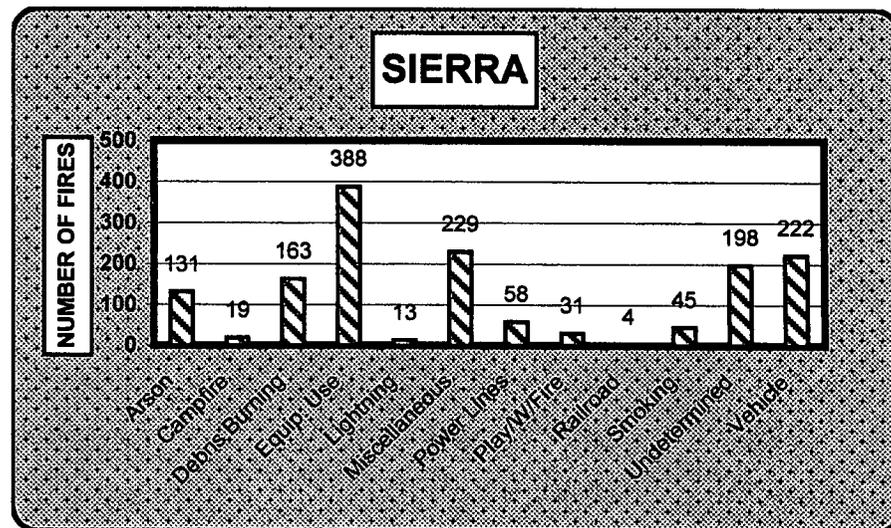

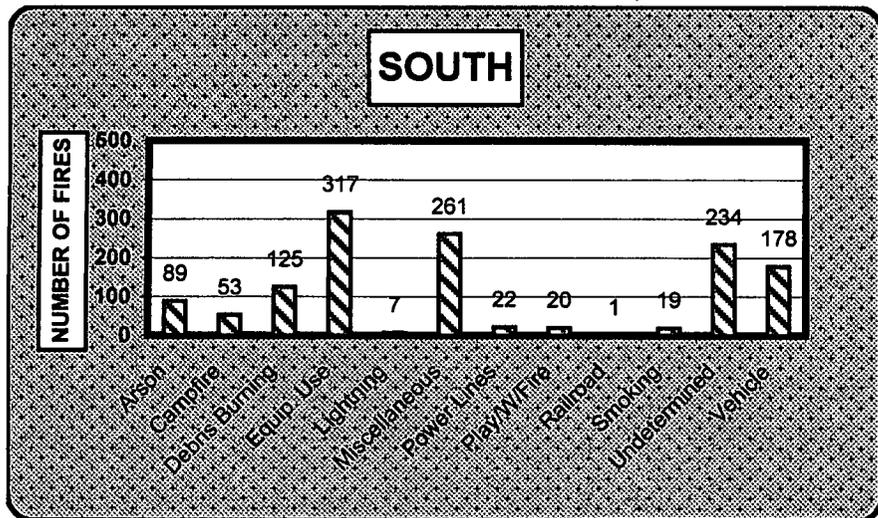

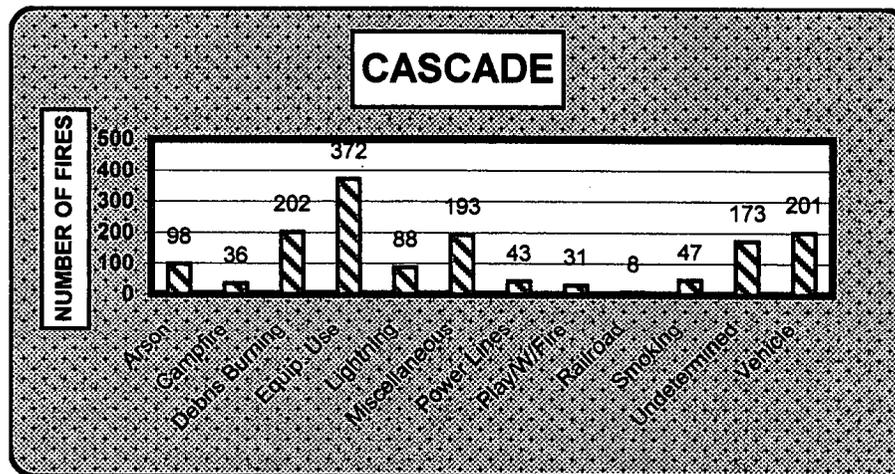

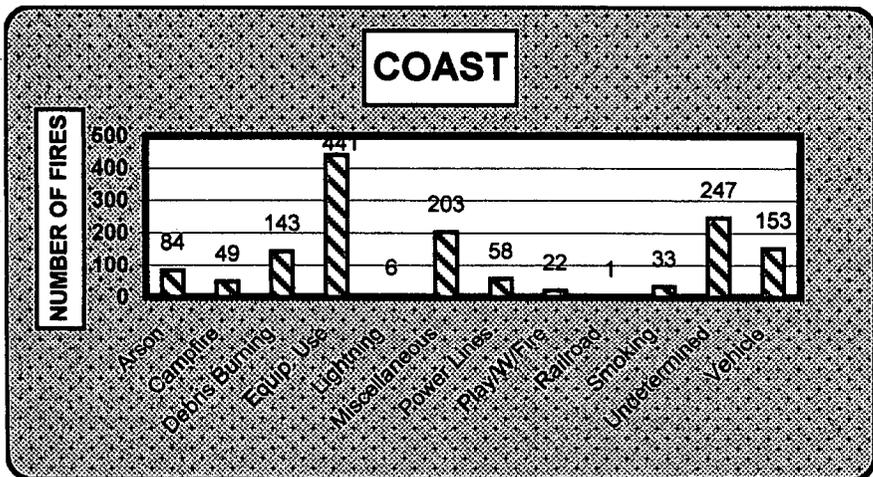

PLAYING WITH FIRE – Fire started without malicious intent by adults or children playing or experimenting with fire or fire-causing agents. Includes fires started unintentionally while playing with fireworks, toys, models and other fire-causing devices. When children cause a fire by smoking, the intent determines the cause, i.e., if smoking as a play activity, use “Playing with fire”; if smoking as a smoker, the cause is “Smoking.”

OTHER CAUSE OR OTHER/MISCELLANEOUS – Fire started by events or activities that cannot be logically placed in any of the preceding cause classes. Examples are electrical wiring on user’s side of meter, explosives and munitions (without arson intent) fireworks or signal devices (not in play activity), spontaneous combustion, spark from fireplace (when not debris burning), horseshoe spark, light bulb, or natural source (not lightning). Do not use for fires of unknown cause unless “other is the most logical choice of causes.
