# WILDFIRE ACTIVITY STATISTICS

## FOREWORD

The California Public Resources Code directs the State Board of Forestry and Fire Protection to designate state and privately-owned forest, watershed, and rangeland as "State Responsibility Area (SRA)." The California Department of Forestry and Fire Protection's (CDF) mission is to protect natural resources on those lands from damage by wildfire. Land not designated as SRA, is the protection responsibility of federal or local fire agencies.

CDF provides wildland fire protection for most State Responsibility Area. The remainder is protected by several agencies and counties under contract with the state. CDF also contracts to provide wildland fire protection on certain federal lands, and provides contracted life and property protection for numerous local governments. This protection of other agency land becomes the "Direct Protection Responsibility" (DPA) of CDF.

This annual report is primarily a statistical record of fires and damage on DPA. The statistical information provide in these reports is gathered from CDF's Emergency Activity Reporting System (EARS) which was inducted on July 1, 1989.

## GLOSSARY

### **CDF**

California Department of Forestry and Fire Protection

### **CONTRACT COUNTY**

Counties that protect State Responsibility Area (SRA) with their fire departments. For providing that protection, the counties receive payment from the state, and CDF support and reinforcement as needed for fire suppression. There are currently six contract counties: Kern, Los Angeles, Marin, Orange, Santa Barbara, and Ventura.

### **DIRECT PROTECTION AREA (DPA)**

The area protected by an agency with its own fire protection force.

### **FEDERAL DPA**

The direct protection area of U.S. Forest Service, Bureau of Land Management, National Park Service, Department of Defense, and Bureau of Indian Affairs. State Responsibility Area within federal DPA is protected by federal agencies.

### **LOCAL DPA**

Area in which fire protection is provided by local government agencies; such as, cities, counties, and fire districts, or by CDF under contract with local governments.

### **LOCAL DPA FIRE**

A fire that is the direct responsibility of the local government.

### **STATE RESPONSIBILITY AREA (SRA)**

The area designated by the State Board of Forestry and Fire Protection in which the state assumes primary financial responsibility for preventing and suppressing fires is that of the State.

### **STATE RESPONSIBILITY WILDFIRE**

A fire in SRA which burns or threatens to burn natural resources.

### **STATE DPA**

State Responsibility Area and intermingled federal lands protected by the CDF. Most federal land in state DPA is protected by the CDF under contracts agreements with federal forest agencies.

### **UNPROTECTED AREA**

Privately owned land that is not considered state responsibility area determined by the State Board of Forestry and is not within local jurisdictional boundaries.

### **WILDFIRE**

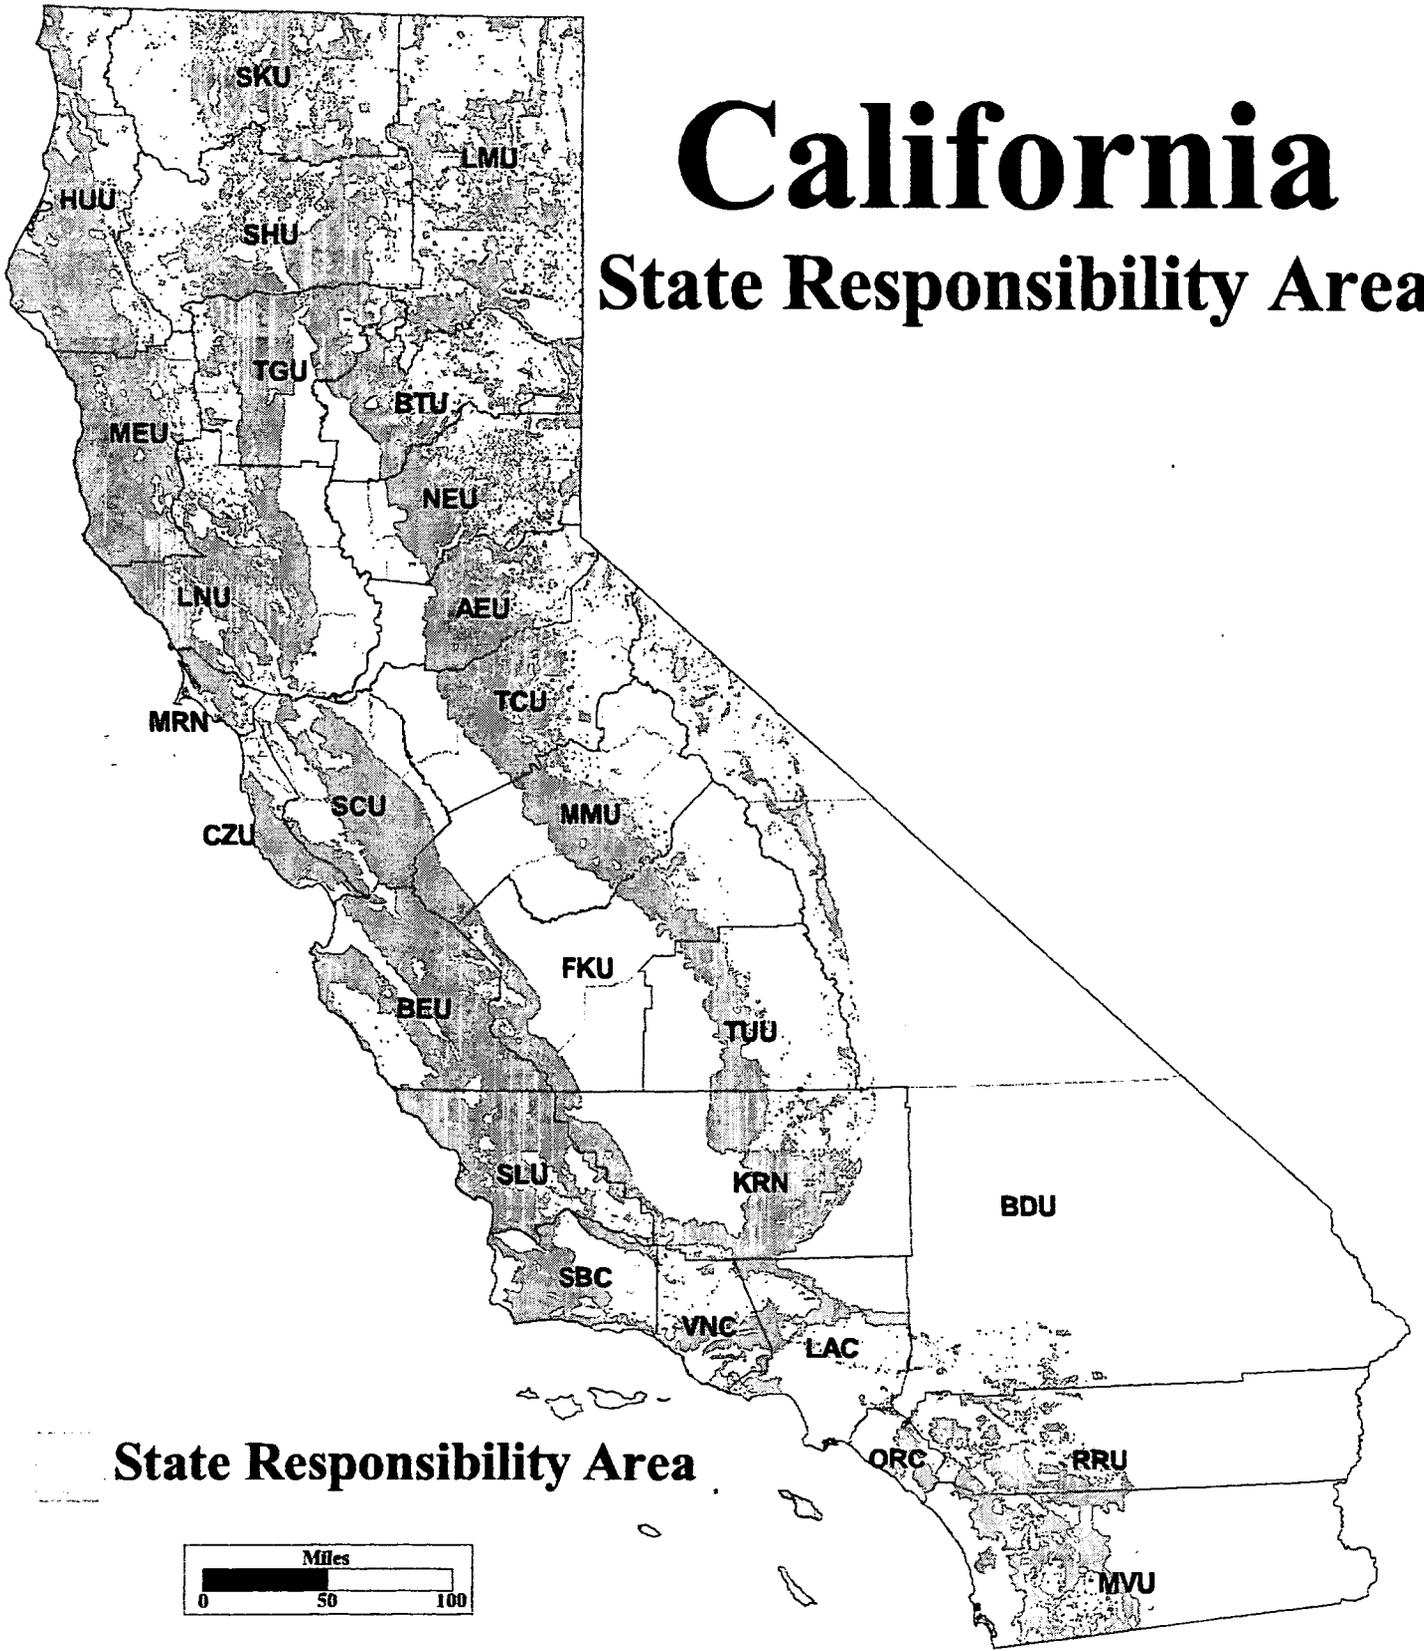

Contraction of "wildland fire." This term is used by wildland fire protection agencies to indicate a vegetation fire. Wildfire generally replaces such terms as forest fire, brush fire, range fire, and grass fire.

## 2003 FIRE SUMMARY

During the 2003 fire year (January 1, 2003 – December 31, 2003), CDF responded to 5,961 wildland fires within its Direct Protection Responsibility Area. This represents an increase of 3% above last year in fire occurrence and 4% below the 5-year average. Even with a minor increase in the number of fires, the total number of acres burned was 404,328 reflecting an increase of 358% above last year 316% above the 5-year average.

CDF officially began fire season May 26, 2003, with the opening of four southern California units San Luis Obispo, San Bernardino, San Diego and Riverside. The last unit to open was the Mendocino unit on July 1, 2003. The season ended with the units closing November 10<sup>th</sup> through November 17<sup>th</sup>. But due to the extreme fire danger, the Riverside and San Bernardino units continued to stay open until February 2, 2004.

Fire Season 2003 will go down in history for the destruction it caused. Within all CDF jurisdictions, over 500,000 acres burned in CDF DPA and SRA acres protected by Contracted Counties combined. More than 1 million acres burned in all fire jurisdictions statewide. An estimated 5,200 structures were destroyed; approximately 3,600 of them were residential homes. During the fire siege alone (October 21, 2003 – November 2, 2003), twenty four people lost their life, including one firefighter. Total suppression cost to CDF has been estimated at \$174 million.

### The top five fires in acreage burned in CDF direct protection area:

FIRE	COUNTY	START DATE	CDF ACRES BURNED	FIRE CAUSE	STRUCTURES DESTROYED

## LARGE DAMAGING FIRE CRITERIA:

The above list includes fires 300 acres or larger that burned at least:

30 acres of timber or  
 300 acres of brush or  
 1,500 acres of woodland or  
 1,500 acres of grass or  
 1,500 acres of agricultural products or  
 3 or more structures destroyed or  
 \$300,000 or more dollar damage loss

### Abbreviations used in this list are:

ORIGIN D.P.A.	=	The agency on whose Direct Protection Area (D.P.A.) the fire started.
ACRES BURNED	=	Acres burned in Direct Protection Area of CDF, other agencies and total area burned.
VEGETATION TYPE	=	Type of vegetation burned
T	=	Timber
B	=	Brush
W	=	Woodland
G	=	Grass
A	=	Agricultural Products
STRUCTURES	=	Number of dwellings or structures destroyed or damaged. Dwellings and structures destroyed or damaged by fires not included on this list have not been tabulated.

# WILDFIRE STATISTICS

CDF DIRECT PROTECTION AREA

## GENERAL FIRE CAUSE DEFINITIONS

**UNDETERMINED** – After investigation the cause of the fire is not known.

**LIGHTNING** – Fire started by lightning.

**CAMPFIRE** – Fire started from a campfire. A “campfire” is a fire used for cooking, warmth, lighting, ceremonial, or aesthetic purposes, not within a building, mobile home, or living accommodation mounted on a motor vehicle.” (4103.5 PRC) In addition to the traditional type of open campfires, this category includes lanterns, and cooking and warming stoves used in camping or ceremonial activity, etc. when outside a building, mobile home, or living accommodation mounted on a motor vehicle.

**SMOKING** – Fire started from smoking tobacco or other material; includes matches and other heat sources used in smoking.

**DEBRIS BURNING** – Fire started by burning refuse, slash, trash, rights-of-way, or rangeland

Dooryard – Fire started by burning a trash pile, incinerator, etc., usually with a dooryard-burning permit, Form LE-62.

Other – Fire started by project, contract, slash or other burning, usually with a Project Permit Form LE-7, or application and burning permit, Form LE-5.

**ARSON** – Fire started willfully and maliciously to burn or attempt to burn structures, forest land, or property.

**EQUIPMENT USE** – Fire started by the use of mechanical or electrical equipment.

Stationary Equipment – Fire started by any mechanical equipment that is stationary (not normally portable).

Portable Equipment – Fire started by any mechanical equipment or tool that is portable (not normally stationary).

Other Equipment – Fire started by any equipment not listed above.

**VEHICLE** – Fire started by a motorized transportation vehicle.

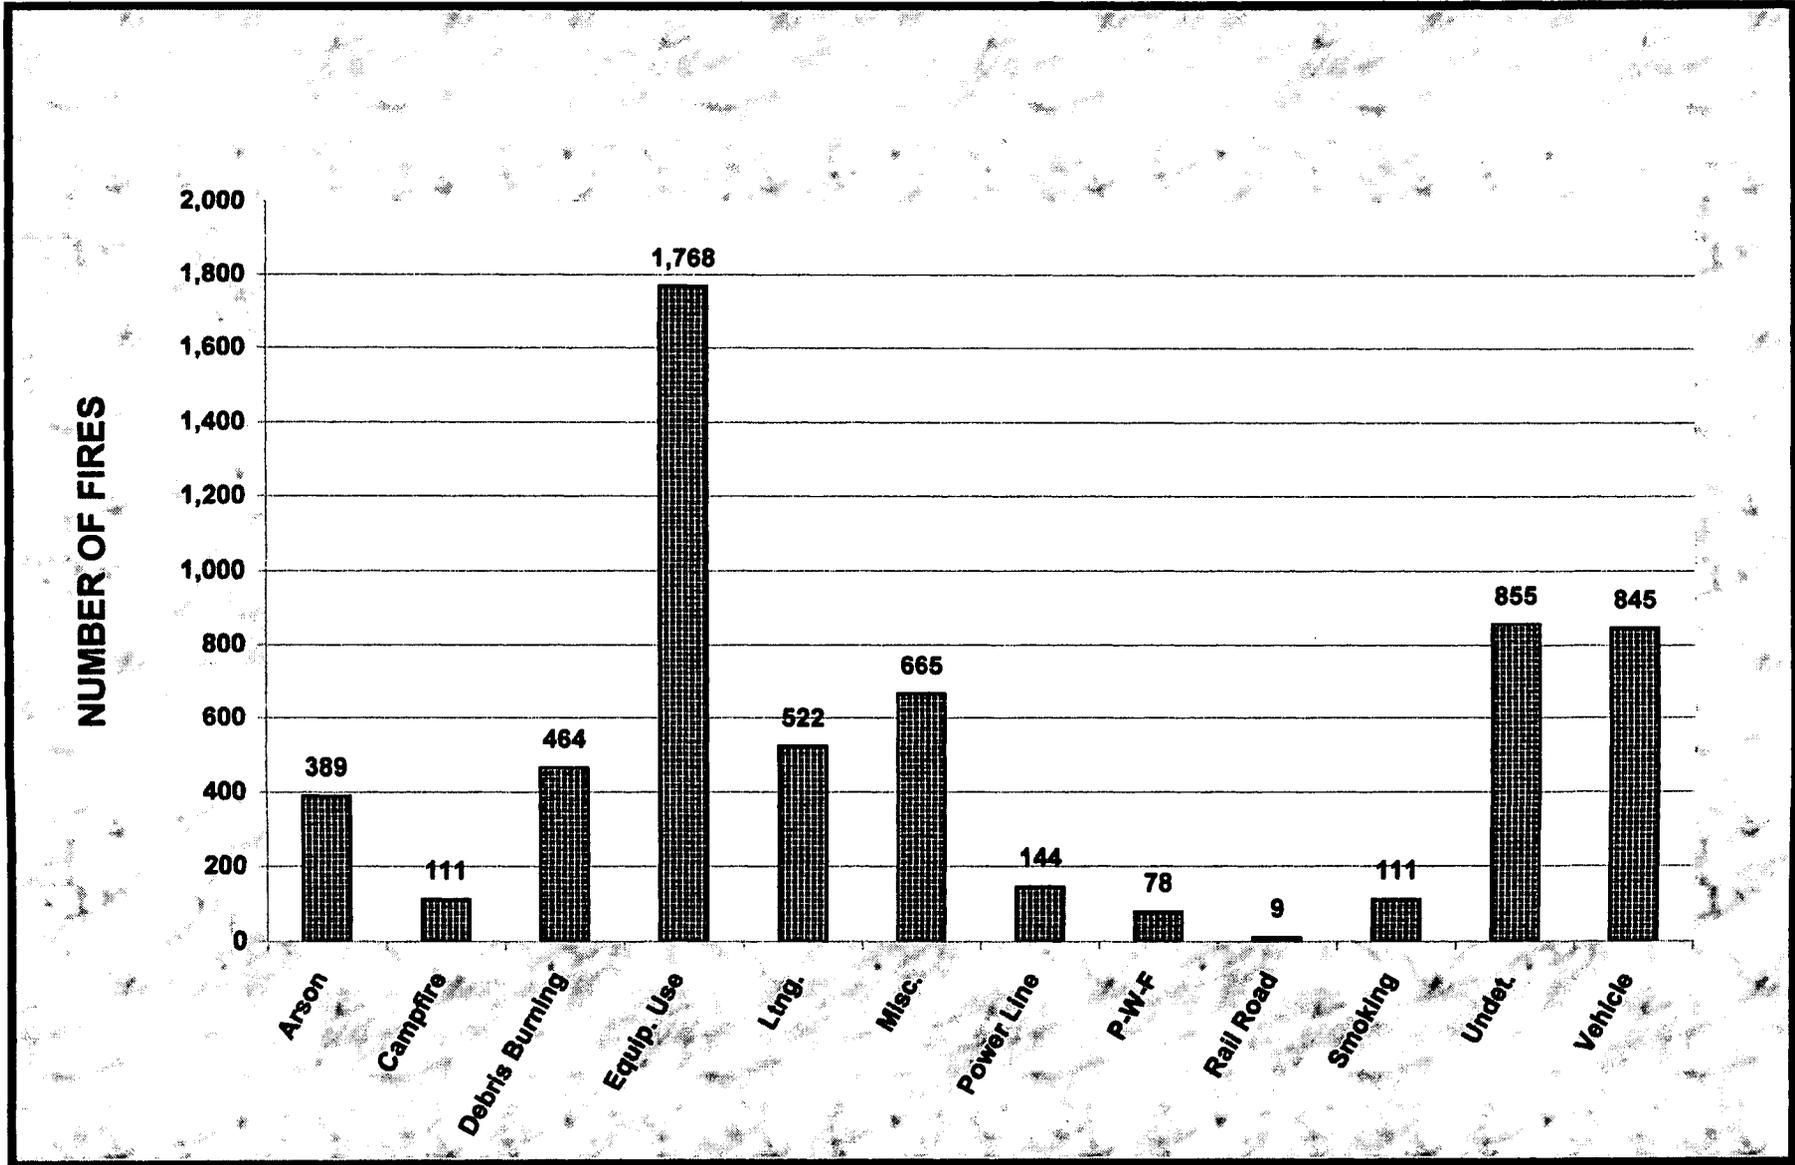

**RAILROAD** – Fire started by railroad rolling stock, such as speeder, locomotive, or rail car.

**ELECTRICAL POWER** – Fire started by electric distribution or transmission, powerline – hardware, pole or tower, and conductors, to the user’s meter.

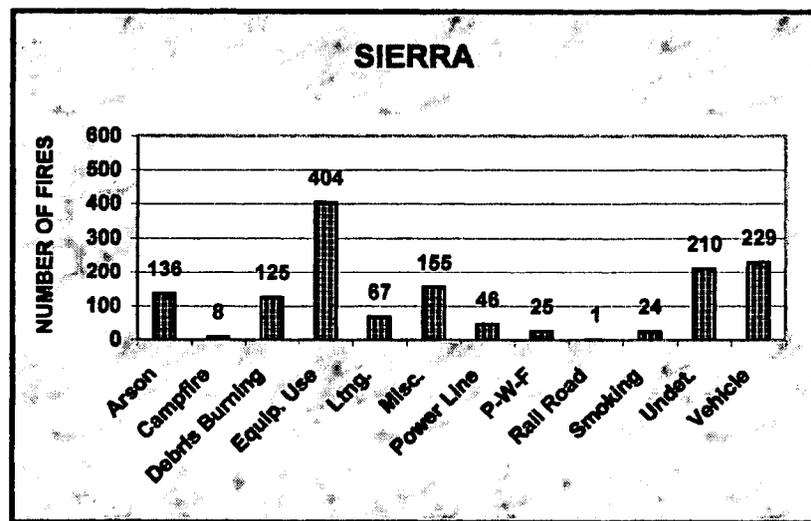

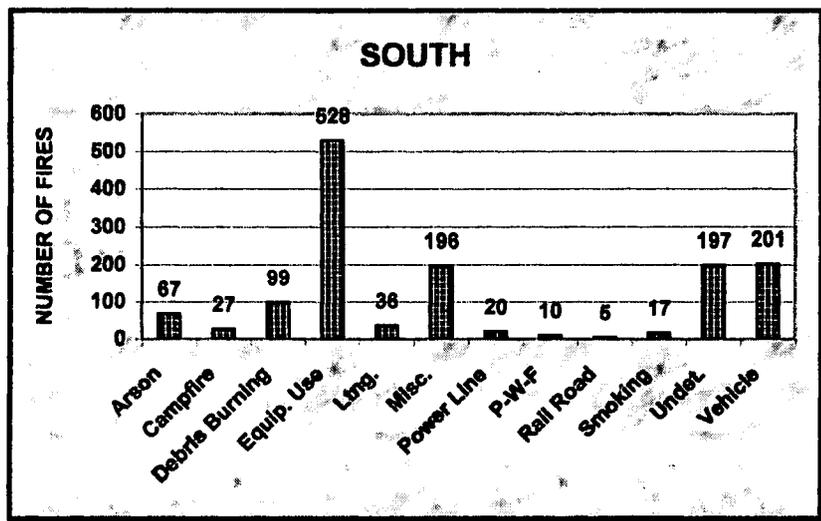

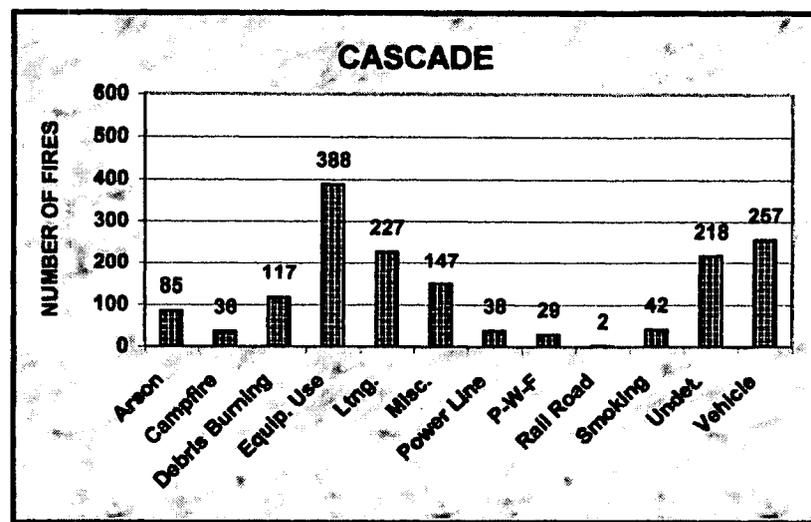

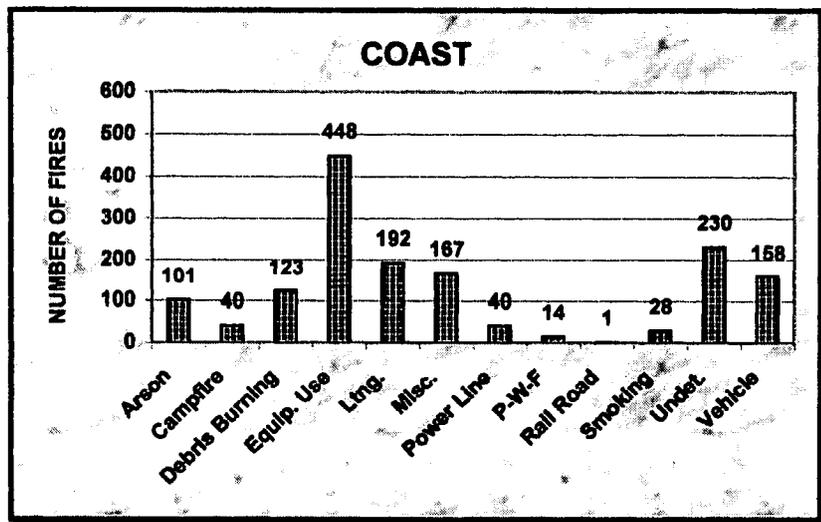

**PLAYING WITH FIRE** – Fire started without malicious intent by adults or children playing or experimenting with fire or fire-causing agents. Includes fires started unintentionally while playing with fireworks, toys, models and other fire-causing devices. When children cause a fire by smoking, the intent determines the cause, i.e., if smoking as a play activity, use “Playing with fire”; if smoking as a smoker, the cause is “Smoking.”

**OTHER CAUSE OR OTHER/MISCELLANEOUS** – Fire started by events or activities that cannot be logically placed in any of the preceding “cause” classifications. Examples are electrical wiring on user’s side of meter, explosives and munitions (without arson intent) fireworks or signal devices (not in play activity), spontaneous combustion, spark from fireplace (when not debris burning), horseshoe spark, light bulb, or natural source (not lightning). Do not use for fires of unknown cause unless “other is the most logical choice of causes.
