Derivation of Harvest Estimates by Silviculture

Variable Retention: Timber cruise of 1 plot per 2.5 acres, minus a 100% tally of marked retention trees.

Single Tree Selection & Trees outside/adjacent groups: 100% Tree Tally

2.5 acre Groups (within boundaries): Timber cruise of 1 plot per 1.25 acres.

Note: Includes a 100% tally of WLPZ trees. Estimates do not include an estimate for cable corridors. Estimates for grand-fir included below.

grand fir (all harvest units)
