

TREE MORTALITY DISASTER

• FOUR YEARS OF DROUGHT HAVE PUT TREMENDOUS STRESS ON TREES IN CALIFORNIA'S FORESTS, RESULTING IN WIDESPREAD MORTALITY.

• BARK BEETLES ARE THE PRIMARY CAUSE OF MORTALITY FOR MOST PINE AND FIR TREES BUT OTHER TREES SUCH AS INCENSE CEDAR AND LIVE OAK ARE SIMPLY DYING FROM LACK OF WATER.

• EXTENSIVE TREE MORTALITY IS OCCURRING IN MANY AREAS ACROSS FEDERAL, STATE AND PRIVATE LANDS.
