**Approval of Last Meeting Minutes:** Approved

**Additional Agenda Items:** None

**Outcomes / Action Items:**

- PG&E approved release of their wood storage locations for use in the viewer. Emily will coordinate with PG&E staff to get final validation, then will coordinate with Rebecca to update the service and the viewer.
- No update on the status/results of the Carnegie Airborne study. Still a pending item.
- The Tree Mortality Viewer guide for biomass users will be moving to the greensheet process in the next week or two, pending final chance for review from Angie.
- This year's ADS flights are complete, and are now in the review and finalization phase.
- Mortality projects were due today and are still awaiting final submittals and approval. Will be incorporated into the main dataset within next day or so.
- The HHZ Tier 1 local designation process is moving forward. Test has already been completed, and now on to creating documentation, and ultimately getting the process on the web in the near future.
- HHZ Tier 2 applications have been coming in from several counties, and are moving through the process.
