**The following are limitations or requirements for timber operations conducted under a Notice of Emergency Timber Operations (Notice, Notice of Emergency, or Emergency Notice):**

- This notice must be submitted to and received by CAL FIRE at one of the offices listed below. Timber operations may not commence for five working days after receipt by CAL FIRE unless waiting period is waived by the Director of CAL FIRE.
- 14 CCR §§ 895.1 and 1052.1 define and list emergency conditions. Citing or paraphrasing of these sections does not satisfy the requirements of 14 CCR § 1052.2. The registered professional forester (RPF) preparing the notice must accomplish the following to substantiate the emergency. Describe the nature of the emergency, and the need for immediate cutting in sufficient detail so the reason for the emergency is clear. When the emergency is classified as financial, the following questions must be answered: What is the reason the timber has previously been inoperable or unmerchantable? Why is the harvest opportunity not economically feasible for more than one year? Why do the operations have only minimal impact on timberland resources? The financial emergency described in 14 CCR § 1052.1 means financial loss of timber and not loss of profit. Financial loss requires a loss of timber resource.
- Timber operations conducted under this notice must meet minimum stocking standards at the completion of operations. The timber operations shall also comply with all operational provisions of the Forest Practice Act and District Forest Practice Rules applicable to "Timber Harvesting Plan," "THP," and "plan." The requirements to submit a completion and stocking report apply. 14 CCR § 1052 describes how exceptions to the rules for non-financial emergencies can be addressed. If this is a financial emergency the conditions specified in 14 CCR § 1038 (b)(1)-(10) must be met.
- This Notice of Emergency is valid for one year from the date accepted by CAL FIRE. If timber operations are to extend beyond the one-year period, such operations must be described in an approved timber harvesting plan. If there is any doubt that a timber operation will not be completed in one year, a THP should be submitted to CAL FIRE early during the one-year operating period.
- A Timber Operator with a valid state license must be designated upon submission of this notice.

**The following suggestions may help ensure your compliance with the Forest Practice Rules:**

- Timber Owners, Timberland owners and Timber Operators should obtain and review copies of the Forest Practice Rules pertaining to the Notice of Emergency. Copies may be obtained from BARCLAYS LAW PUBLISHERS, P.O. BOX 3066, SO. SAN FRANCISCO, CA. 94080. or from CAL FIRE, Forest Practice Section, P.O. BOX 944246, Sacramento, CA 94244-2460; or from CAL FIRE's Web Page on the Internet at <http://www.fire.ca.gov>.
