Summary: This project will consist of burning annual grasses along Hwy 41 in Eastern Madera County. This portion of Hwy 41 has the history of the most wildland fire starts in the area. The project will burn along Hwy 41 between the Highway and the fuel break of the adjacent private land owners. This will improve rangeland, while reducing highway hazards and high fire suppression costs.

What communities or habitats will project protect? Coarsegold (Pop: 1,840), O’neals (Pop: 172), Hidden lakes (208 homes).
