CALIFORNIA NATURAL RESOURCES AGENCY
ADOPTION OF FINAL TRIBAL CONSULTATION POLICY

November 20, 2012

Pursuant to Executive Order B-10-11 dated September 19, 2011, the California Natural Resources Agency hereby adopts the attached Final Tribal Consultation Policy, Exhibit A.

Date: 11/20/12

John Laird
Secretary for the California Natural Resources Agency
California Natural Resources Agency Tribal Consultation Policy

Purpose of the Policy

The mission of the California Natural Resources Agency is to restore, protect and manage the state's natural, historical and cultural resources for current and future generations using creative approaches and solutions based on science, collaboration and respect for all the communities and interests involved. California Native American Tribes and tribal communities have sovereign authority over their members and territory and a unique relationship with California's resources. All California Tribes and tribal communities, whether federally recognized or not, have distinct cultural, spiritual, environmental, economic and public health interests and unique traditional cultural knowledge about California resources.

On September 19, 2011, Governor Edmund G. Brown, Jr. issued Executive Order B-10-11, which provides, among other things, that it is the policy of the administration that every state agency and Department subject to executive control to implement effective government-to-government consultation with California Indian Tribes.

The purpose of this policy is to ensure effective government-to-government consultation between the Natural Resources Agency, its Departments of the Natural Resources Agency and Indian tribes and tribal communities to further this mission and to provide meaningful input into the development of regulations, rules, policies, programs, projects, plans, property decisions and activities that may affect tribal communities. It is only by engaging in open, inclusive and regular communication efforts that the interests of California's Tribes and tribal communities will be recognized and understood in the larger context of complex decision-making. The goal of the policy is to engage in the timely and active process of respectfully seeking, discussing and considering the views of California Indian Tribes, Tribal communities and Tribal Consortia in an effort to resolve concerns of as many parties as possible.

Each Department in the Natural Resources Agency has a different statutory mandate and, in some cases, may have consultation, communication, collaboration or interaction requirements imposed on it by other laws or regulations. For instance, Departments may have requirements under federal law to engage in consultation with Tribal governments. This policy is not intended to replace or supplant obligations mandated by federal law. This policy defines provisions for improving Natural Resources Agency consultation, communication and collaboration with tribes to the extent that a conflict does not exist with applicable law or regulations. Department is defined as any department, board, commission, council or conservancy subject to executive control.

This policy anticipates a deliberate process that aims to create effective collaboration and informed decision making where all parties share a goal of reaching a decision together. All parties in the process should promote respect, shared responsibility and an open and free
exchange of information. The inclusion of tribes and tribal communities throughout the decision-making process will promote positive, achievable, durable outcomes.

This policy is intended solely for the guidance of employees of the Natural Resources Agency and its Departments and does not extend to other governmental entities, although the Natural Resources Agency encourages cooperation, education and communication on the part of all governmental entities. This policy is not intended, and should not be construed, to define the legal relationship between the Natural Resources Agency and its Departments and California tribes and tribal communities. This policy is not a regulation, and it does not create, expand, limit, waive, or interpret any legal rights or obligations.

The Secretary of the Natural Resources Agency hereby directs the Agency staff and Departments to undertake implementation of the policy as set forth below.
Implementation of the Tribal Consultation Policy

1. Outreach. The Agency and Departments must identify the Native American tribes to consult at the earliest possible time in the planning process and allow a reasonable opportunity for tribes to respond and participate. Each Department is responsible for meaningful consultation with Native American tribes that promote regular and early consultation through communication and collaboration. Each Department will identify participants in the process - including the decision-makers and staff with an appropriate level of responsibility - that can ensure that tribal concerns will be brought forward.

Each Department shall disseminate public documents, notices and information to California Indian Tribes, tribal communities and tribal consortia, minimally by contacting tribal government officials. The documents, regarding the topic for consultation, shall be made readily accessible to tribes and be provided at the earliest opportunity. Notification should include sufficient detail of the topic to be discussed to allow tribal leaders an opportunity to fully engage in a substantive dialogue. In the event the Department makes an attempt to initiate contact and does not receive a response, the Department should make reasonable and periodic efforts throughout the process to repeat the invitation.

Each Department should conduct meetings, outreach and workshops at times and locations that facilitate tribal participation as much as possible. The Departments will be open to communication opportunities initiated by Tribes and seek opportunities for collaboration by communicating regularly with tribes. Each Department should establish a mechanism to request relevant and available information, studies and data from tribes when conducting research or studies that relate to, or could impact, tribal lands or cultural resources. The Department should seek to protect any confidential information provided to the fullest extent allowed by the law, recognizing that the Departments are subject to the California Public Records Act.

2. Tribal Liaisons. Each Department should designate a tribal liaison, or liaisons, to serve as the central point of contact for Indian tribes. The role of the tribal liaison will be to ensure that Department outreach and communication efforts are undertaken in a manner consistent with this policy. Tribal liaisons should be encouraged and empowered to
develop ongoing and regular communication with tribal representatives. Where possible and where consistent with Administration policy and guidance, tribal liaisons should use these ongoing relationships to inform tribes of issues of interest that may not necessitate consultation, such as legislative proposals that may affect tribal communities. Tribal liaisons should make an effort to provide feedback to the tribes on how information obtained from a consultation informed the Department's decision making process.

3. Tribal Liaison Committee. The Agency hereby designates the CNRA Tribal Liaison Committee consisting of Department tribal liaisons that will meet on a regular basis in the Office of the Secretary to review tribal consultation efforts and opportunities in the Departments and share information.

4. Access to Contact Information. The Agency shall work with the Native American Heritage Commission to maintain a contact list of tribal representatives from federally-recognized and non-federally recognized California Indian Tribes.

5. Training. The Agency will provide training to tribal liaisons and executive staff, managers, supervisors and employees on implementation of this policy.
Assembly Bill No. 52

CHAPTER 532

An act to amend Section 5097.94 of, and to add Sections 21073, 21074, 21080.3.1, 21080.3.2, 21082.3, 21083.09, 21084.2, and 21084.3 to, the Public Resources Code, relating to Native Americans.

[Approved by Governor September 25, 2014. Filed with Secretary of State September 25, 2014.]

LEGISLATIVE COUNSEL’S DIGEST

Existing law, the Native American Historic Resource Protection Act, establishes a misdemeanor for unlawfully and maliciously excavating upon, removing, destroying, injuring, or defacing a Native American historic, cultural, or sacred site, that is listed or may be eligible for listing in the California Register of Historic Resources.

The California Environmental Quality Act, referred to as CEQA, requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA requires the lead agency to provide a responsible agency with specified notice and opportunities to comment on a proposed project. CEQA requires the Office of Planning and Research to prepare and develop, and the Secretary of the Natural Resources Agency to certify and adopt, guidelines for the implementation of CEQA that include, among other things, criteria for public agencies to following in determining whether or not a proposed project may have a significant effect on the environment.

This bill would specify that a project with an effect that may cause a substantial adverse change in the significance of a tribal cultural resource, as defined, is a project that may have a significant effect on the environment. The bill would require a lead agency to begin consultation with a California Native American tribe that is traditionally and culturally affiliated with the geographic area of the proposed project, if the tribe requested to the lead agency, in writing, to be informed by the lead agency of proposed projects in that geographic area and the tribe requests consultation, prior to determining whether a negative declaration, mitigated negative declaration, or environmental impact report is required for a project. The bill would
specify examples of mitigation measures that may be considered to avoid or minimize impacts on tribal cultural resources. The bill would make the above provisions applicable to projects that have a notice of preparation or a notice of negative declaration filed or mitigated negative declaration on or after July 1, 2015. The bill would require the Office of Planning and Research to revise on or before July 1, 2016, the guidelines to separate the consideration of tribal cultural resources from that for paleontological resources and add consideration of tribal cultural resources. By requiring the lead agency to consider these effects relative to tribal cultural resources and to conduct consultation with California Native American tribes, this bill would impose a state-mandated local program.

Existing law establishes the Native American Heritage Commission and vests the commission with specified powers and duties. This bill would additionally require the commission to provide each California Native American tribe, as defined, on or before July 1, 2016, with a list of all public agencies that may be a lead agency within the geographic area in which the tribe is traditionally and culturally affiliated, the contact information of those agencies, and information on how the tribe may request those public agencies to notify the tribe of projects within the jurisdiction of those public agencies for the purposes of requesting consultation.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares all of the following:

(1) Current state law provides a limited measure of protection for sites, features, places, objects, and landscapes with cultural value to California Native American tribes.

(2) Existing law provides limited protection for Native American sacred places, including, but not limited to, places of worship, religious or ceremonial sites, and sacred shrines.

(3) The California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) does not readily or directly include California Native American tribes’ knowledge and concerns. This has resulted in significant environmental impacts to tribal cultural resources and sacred places, including cumulative impacts, to the detriment of California Native American tribes and California’s environment.

(4) As California Native Americans have used, and continue to use, natural settings in the conduct of religious observances, ceremonies, and cultural practices and beliefs, these resources reflect the tribes’ continuing cultural ties to the land and their traditional heritages.
Many of these archaeological, historical, cultural, and sacred sites are not located within the current boundaries of California Native American reservations and rancherias, and therefore are not covered by the protectionist policies of tribal governments.

In recognition of California Native American tribal sovereignty and the unique relationship of California local governments and public agencies with California Native American tribal governments, and respecting the interests and roles of project proponents, it is the intent of the Legislature, in enacting this act, to accomplish all of the following:

1. Recognize that California Native American prehistoric, historic, archaeological, cultural, and sacred places are essential elements in tribal cultural traditions, heritages, and identities.

2. Establish a new category of resources in the California Environmental Quality Act called “tribal cultural resources” that considers the tribal cultural values in addition to the scientific and archaeological values when determining impacts and mitigation.

3. Establish examples of mitigation measures for tribal cultural resources that uphold the existing mitigation preference for historical and archaeological resources of preservation in place, if feasible.

4. Recognize that California Native American tribes may have expertise with regard to their tribal history and practices, which concern the tribal cultural resources with which they are traditionally and culturally affiliated. Because the California Environmental Quality Act calls for a sufficient degree of analysis, tribal knowledge about the land and tribal cultural resources at issue should be included in environmental assessments for projects that may have a significant impact on those resources.

5. In recognition of their governmental status, establish a meaningful consultation process between California Native American tribal governments and lead agencies, respecting the interests and roles of all California Native American tribes and project proponents, and the level of required confidentiality concerning tribal cultural resources, at the earliest possible point in the California Environmental Quality Act environmental review process, so that tribal cultural resources can be identified, and culturally appropriate mitigation and mitigation monitoring programs can be considered by the decisionmaking body of the lead agency.

6. Recognize the unique history of California Native American tribes and uphold existing rights of all California Native American tribes to participate in, and contribute their knowledge to, the environmental review process pursuant to the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

7. Ensure that local and tribal governments, public agencies, and project proponents have information available, early in the California Environmental Quality Act environmental review process, for purposes of identifying and addressing potential adverse impacts to tribal cultural resources and to reduce the potential for delay and conflicts in the environmental review process.
(8) Enable California Native American tribes to manage and accept conveyances of, and act as caretakers of, tribal cultural resources.

(9) Establish that a substantial adverse change to a tribal cultural resource has a significant effect on the environment.

SEC. 2. Section 5097.94 of the Public Resources Code is amended to read:

5097.94. The commission shall have the following powers and duties:

(a) To identify and catalog places of special religious or social significance to Native Americans, and known graves and cemeteries of Native Americans on private lands. The identification and cataloguing of known graves and cemeteries shall be completed on or before January 1, 1984. The commission shall notify landowners on whose property such graves and cemeteries are determined to exist, and shall identify the Native American group most likely descended from those Native Americans who may be interred on the property.

(b) To make recommendations relative to Native American sacred places that are located on private lands, are inaccessible to Native Americans, and have cultural significance to Native Americans for acquisition by the state or other public agencies for the purpose of facilitating or assuring access thereto by Native Americans.

(c) To make recommendations to the Legislature relative to procedures which will voluntarily encourage private property owners to preserve and protect sacred places in a natural state and to allow appropriate access to Native American religionists for ceremonial or spiritual activities.

(d) To appoint necessary clerical staff.

(e) To accept grants or donations, real or in kind, to carry out the purposes of this chapter.

(f) To make recommendations to the Director of Parks and Recreation and the California Arts Council relative to the California State Indian Museum and other Indian matters touched upon by department programs.

(g) To bring an action to prevent severe and irreparable damage to, or assure appropriate access for Native Americans to, a Native American sanctified cemetery, place of worship, religious or ceremonial site, or sacred shrine located on public property, pursuant to Section 5097.97. If the court finds that severe and irreparable damage will occur or that appropriate access will be denied, and appropriate mitigation measures are not available, it shall issue an injunction, unless it finds, on clear and convincing evidence, that the public interest and necessity require otherwise. The Attorney General shall represent the commission and the state in litigation concerning affairs of the commission, unless the Attorney General has determined to represent the agency against whom the commission’s action is directed, in which case the commission shall be authorized to employ other counsel. In any action to enforce the provisions of this subdivision the commission shall introduce evidence showing that such cemetery, place, site, or shrine has been historically regarded as a sacred or sanctified place by Native American people and represents a place of unique historical and cultural significance to an Indian tribe or community.
(h) To request and utilize the advice and service of all federal, state, local, and regional agencies.

(i) To assist Native Americans in obtaining appropriate access to sacred places that are located on public lands for ceremonial or spiritual activities.

(j) To assist state agencies in any negotiations with agencies of the federal government for the protection of Native American sacred places that are located on federal lands.

(k) To mediate, upon application of either of the parties, disputes arising between landowners and known descendants relating to the treatment and disposition of Native American human burials, skeletal remains, and items associated with Native American burials.

The agreements shall provide protection to Native American human burials and skeletal remains from vandalism and inadvertent destruction and provide for sensitive treatment and disposition of Native American burials, skeletal remains, and associated grave goods consistent with the planned use of, or the approved project on, the land.

(l) To assist interested landowners in developing agreements with appropriate Native American groups for treating or disposing, with appropriate dignity, of the human remains and any items associated with Native American burials.

(m) To provide each California Native American tribe, as defined in Section 21073, on or before July 1, 2016, with a list of all public agencies that may be a lead agency pursuant to Division 13 (commencing with Section 21000) within the geographic area with which the tribe is traditionally and culturally affiliated, the contact information of those public agencies, and information on how the tribe may request the public agency to notify the tribe of projects within the jurisdiction of those public agencies for the purposes of requesting consultation pursuant to Section 21080.3.1.

SEC. 3. Section 21073 is added to the Public Resources Code, to read:

21073. “California Native American tribe” means a Native American tribe located in California that is on the contact list maintained by the Native American Heritage Commission for the purposes of Chapter 905 of the Statutes of 2004.

SEC. 4. Section 21074 is added to the Public Resources Code, to read:

21074. (a) “Tribal cultural resources” are either of the following:

(1) Sites, features, places, cultural landscapes, sacred places, and objects with cultural value to a California Native American tribe that are either of the following:

(A) Included or determined to be eligible for inclusion in the California Register of Historical Resources.

(B) Included in a local register of historical resources as defined in subdivision (k) of Section 5020.1.

(2) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Section 5024.1. In applying the criteria set forth in subdivision (c) of Section 5024.1 for the purposes of this paragraph, the
lead agency shall consider the significance of the resource to a California 
 Native American tribe.

(b) A cultural landscape that meets the criteria of subdivision (a) is a 
tribal cultural resource to the extent that the landscape is geographically 
defined in terms of the size and scope of the landscape.

(c) A historical resource described in Section 21084.1, a unique 
archaeological resource as defined in subdivision (g) of Section 21083.2, 
or a “nonunique archaeological resource” as defined in subdivision (h) of 
Section 21083.2 may also be a tribal cultural resource if it conforms with 
the criteria of subdivision (a).

SEC. 5. Section 21080.3.1 is added to the Public Resources Code, to 
read:

21080.3.1. (a) The Legislature finds and declares that California Native 
American tribes traditionally and culturally affiliated with a geographic area 
may have expertise concerning their tribal cultural resources.

(b) Prior to the release of a negative declaration, mitigated negative 
declaration, or environmental impact report for a project, the lead agency 
shall begin consultation with a California Native American tribe that is 
traditionally and culturally affiliated with the geographic area of the proposed 
project if: (1) the California Native American tribe requested to the lead 
agency, in writing, to be informed by the lead agency through formal 
notification of proposed projects in the geographic area that is traditionally 
and culturally affiliated with the tribe, and (2) the California Native 
American tribe responds, in writing, within 30 days of receipt of the formal 
notification, and requests the consultation. When responding to the lead 
agency, the California Native American tribe shall designate a lead contact 
person. If the California Native American tribe does not designate a lead 
contact person, or designates multiple lead contact people, the lead agency 
shall defer to the individual listed on the contact list maintained by the 
Native American Heritage Commission for the purposes of Chapter 905 of 
the Statutes of 2004. For purposes of this section and Section 21080.3.2, 
“consultation” shall have the same meaning as provided in Section 65352.4 

(c) To expedite the requirements of this section, the Native American 
Heritage Commission shall assist the lead agency in identifying the 
California Native American tribes that are traditionally and culturally 
affiliated with the project area.

(d) Within 14 days of determining that an application for a project is 
complete or a decision by a public agency to undertake a project, the lead 
agency shall provide formal notification to the designated contact of, or a 
tribal representative of, traditionally and culturally affiliated California 
Native American tribes that have requested notice, which shall be 
accomplished by means of at least one written notification that includes a 
brief description of the proposed project and its location, the lead agency 
contact information, and a notification that the California Native American 
tribe has 30 days to request consultation pursuant to this section.
(e) The lead agency shall begin the consultation process within 30 days of receiving a California Native American tribe’s request for consultation.

SEC. 6. Section 21080.3.2 is added to the Public Resources Code, to read:

21080.3.2. (a) As a part of the consultation pursuant to Section 21080.3.1, the parties may propose mitigation measures, including, but not limited to, those recommended in Section 21084.3, capable of avoiding or substantially lessening potential significant impacts to a tribal cultural resource or alternatives that would avoid significant impacts to a tribal cultural resource. If the California Native American tribe requests consultation regarding alternatives to the project, recommended mitigation measures, or significant effects, the consultation shall include those topics. The consultation may include discussion concerning the type of environmental review necessary, the significance of tribal cultural resources, the significance of the project’s impacts on the tribal cultural resources, and, if necessary, project alternatives or the appropriate measures for preservation or mitigation that the California Native American tribe may recommended to the lead agency.

(b) The consultation shall be considered concluded when either of the following occurs:

(1) The parties agree to measures to mitigate or avoid a significant effect, if a significant effect exists, on a tribal cultural resource.

(2) A party, acting in good faith and after reasonable effort, concludes that mutual agreement cannot be reached.

(c) (1) This section does not limit the ability of a California Native American tribe or the public to submit information to the lead agency regarding the significance of the tribal cultural resources, the significance of the project’s impact on tribal cultural resources, or any appropriate measures to mitigate the impact.

(2) This section does not limit the ability of the lead agency or project proponent to incorporate changes and additions to the project as a result of the consultation, even if not legally required.

(d) If the project proponent or its consultants participate in the consultation, those parties shall respect the principles set forth in this section.

SEC. 7. Section 21082.3 is added to the Public Resources Code, to read:

21082.3. (a) Any mitigation measures agreed upon in the consultation conducted pursuant to Section 21080.3.2 shall be recommended for inclusion in the environmental document and in an adopted mitigation monitoring and reporting program, if determined to avoid or lessen the impact pursuant to paragraph (2) of subdivision (b), and shall be fully enforceable.

(b) If a project may have a significant impact on a tribal cultural resource, the lead agency’s environmental document shall discuss both of the following:

(1) Whether the proposed project has a significant impact on an identified tribal cultural resource.
(2) Whether feasible alternatives or mitigation measures, including those measures that may be agreed to pursuant to subdivision (a), avoid or substantially lessen the impact on the identified tribal cultural resource.

(c) (1) Any information, including, but not limited to, the location, description, and use of the tribal cultural resources, that is submitted by a California Native American tribe during the environmental review process shall not be included in the environmental document or otherwise disclosed by the lead agency or any other public agency to the public, consistent with subdivision (r) of Section 6254 of, and Section 6254.10 of, the Government Code, and subdivision (d) of Section 15120 of Title 14 of the California Code of Regulations, without the prior consent of the tribe that provided the information. If the lead agency publishes any information submitted by a California Native American tribe during the consultation or environmental review process, that information shall be published in a confidential appendix to the environmental document unless the tribe that provided the information consents, in writing, to the disclosure of some or all of the information to the public. This subdivision does not prohibit the confidential exchange of the submitted information between public agencies that have lawful jurisdiction over the preparation of the environmental document.

(2) (A) This subdivision does not prohibit the confidential exchange of information regarding tribal cultural resources submitted by a California Native American tribe during the consultation or environmental review process among the lead agency, the California Native American tribe, the project applicant, or the project applicant’s agent. Except as provided in subparagraph (B) or unless the California Native American tribe providing the information consents, in writing, to public disclosure, the project applicant or the project applicant’s legal advisers, using a reasonable degree of care, shall maintain the confidentiality of the information exchanged for the purposes of preventing looting, vandalism, or damage to a tribal cultural resources and shall not disclose to a third party confidential information regarding tribal cultural resources.

(B) This paragraph does not apply to data or information that are or become publicly available, are already in the lawful possession of the project applicant before the provision of the information by the California Native American tribe, are independently developed by the project applicant or the project applicant’s agents, or are lawfully obtained by the project applicant from a third party that is not the lead agency, a California Native American tribe, or another public agency.

(3) This subdivision does not affect or alter the application of subdivision (r) of Section 6254 of the Government Code, Section 6254.10 of the Government Code, or subdivision (d) of Section 15120 of Title 14 of the California Code of Regulations.

(4) This subdivision does not prevent a lead agency or other public agency from describing the information in general terms in the environmental document so as to inform the public of the basis of the lead agency’s or other public agency’s decision without breaching the confidentiality required by this subdivision.
In addition to other provisions of this division, the lead agency may certify an environmental impact report or adopt a mitigated negative declaration for a project with a significant impact on an identified tribal cultural resource only if one of the following occurs:

1. The consultation process between the California Native American tribe and the lead agency has occurred as provided in Sections 21080.3.1 and 21080.3.2 and concluded pursuant to subdivision (b) of Section 21080.3.2.

2. The California Native American tribe has requested consultation pursuant to Section 21080.3.1 and has failed to provide comments to the lead agency, or otherwise failed to engage, in the consultation process.

3. The lead agency has complied with subdivision (d) of Section 21080.3.1 and the California Native American tribe has failed to request consultation within 30 days.

4. If the mitigation measures recommended by the staff of the lead agency as a result of the consultation process are not included in the environmental document or if there are no agreed upon mitigation measures at the conclusion of the consultation or if consultation does not occur, and if substantial evidence demonstrates that a project will cause a significant effect to a tribal cultural resource, the lead agency shall consider feasible mitigation pursuant to subdivision (b) of Section 21084.3.

5. Consistent with subdivision (c), the lead agency shall publish confidential information obtained from a California Native American tribe during the consultation process in a confidential appendix to the environmental document and shall include a general description of the information, as provided in paragraph (4) of subdivision (c) in the environmental document for public review during the public comment period provided pursuant to this division.

6. This section is not intended, and may not be construed, to limit consultation between the state and tribal governments, existing confidentiality provisions, or the protection of religious exercise to the fullest extent permitted under state and federal law.

SEC. 8. Section 21083.09 is added to the Public Resources Code, to read:

21083.09. On or before July 1, 2016, the Office of Planning and Research shall prepare and develop, and the Secretary of the Natural Resources Agency shall certify and adopt, revisions to the guidelines that update Appendix G of Chapter 3 (commencing with Section 15000) of Division 6 of Title 4 of the California Code of Regulations to do both of the following:

(a) Separate the consideration of paleontological resources from tribal cultural resources and update the relevant sample questions.

(b) Add consideration of tribal cultural resources with relevant sample questions.

SEC. 9. Section 21084.2 is added to the Public Resources Code, to read:

21084.2. A project with an effect that may cause a substantial adverse change in the significance of a tribal cultural resource is a project that may have a significant effect on the environment.
SEC. 10. Section 21084.3 is added to the Public Resources Code, to read:

21084.3. (a) Public agencies shall, when feasible, avoid damaging effects to any tribal cultural resource.

(b) If the lead agency determines that a project may cause a substantial adverse change to a tribal cultural resource, and measures are not otherwise identified in the consultation process provided in Section 21080.3.2, the following are examples of mitigation measures that, if feasible, may be considered to avoid or minimize the significant adverse impacts:

1. Avoidance and preservation of the resources in place, including, but not limited to, planning and construction to avoid the resources and protect the cultural and natural context, or planning greenspace, parks, or other open space, to incorporate the resources with culturally appropriate protection and management criteria.

2. Treating the resource with culturally appropriate dignity taking into account the tribal cultural values and meaning of the resource, including, but not limited to, the following:
   A. Protecting the cultural character and integrity of the resource.
   B. Protecting the traditional use of the resource.
   C. Protecting the confidentiality of the resource.

3. Permanent conservation easements or other interests in real property, with culturally appropriate management criteria for the purposes of preserving or utilizing the resources or places.

4. Protecting the resource.

SEC. 11. (a) This act does not alter or expand the applicability of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) concerning projects occurring on Native American tribal reservations or rancherias.

(b) This act does not prohibit any California Native American tribe or individual from participating in the California Environmental Quality Act on any issue of concern as an interested California Native American tribe, person, citizen, or member of the public.

(c) This act shall apply only to a project that has a notice of preparation or a notice of negative declaration or mitigated negative declaration filed on or after July 1, 2015.

SEC. 12. No reimbursement is required by this act pursuant to Section 6 of Article XIIIB of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.
65352.3. (a) (1) Prior to the adoption or any amendment of a city or county’s general plan, proposed on or after March 1, 2005, the city or county shall conduct consultations with California Native American tribes that are on the contact list maintained by the Native American Heritage Commission for the purpose of preserving or mitigating impacts to places, features, and objects described in Sections 5097.9 and 5097.993 of the Public Resources Code that are located within the city or county’s jurisdiction.

(2) From the date on which a California Native American tribe is contacted by a city or county pursuant to this subdivision, the tribe has 90 days in which to request a consultation, unless a shorter timeframe has been agreed to by that tribe.

(b) Consistent with the guidelines developed and adopted by the Office of Planning and Research pursuant to Section 65040.2, the city or county shall protect the confidentiality of information concerning the specific identity, location, character, and use of those places, features, and objects.

(Amended by Stats. 2005, Ch. 670, Sec. 3. Effective October 7, 2005.)
65352.4. For purposes of Section 65351, 65352.3, and 65562.5, "consultation" means the meaningful and timely process of seeking, discussing, and considering carefully the views of others, in a manner that is cognizant of all parties’ cultural values and, where feasible, seeking agreement. Consultation between government agencies and Native American tribes shall be conducted in a way that is mutually respectful of each party’s sovereignty. Consultation shall also recognize the tribes’ potential needs for confidentiality with respect to places that have traditional tribal cultural significance.

(Added by Stats. 2004, Ch. 905, Sec. 8. Effective January 1, 2005.)
65560. For purposes of this chapter:

(a) “Amount of land converted to agricultural use” means those lands that were brought into agricultural use or reestablished in agricultural use and were not shown as agricultural land on Important Farmland Series maps maintained by the department in the most recent biennial report.

(b) “Amount of land converted from agricultural use” means those lands that were permanently converted or committed to urban or other non-agricultural uses and were shown as agricultural land on Important Farmland Series maps maintained by the department and in the most recent biennial report.

(c) “Category of agricultural land” means prime farmland, farmland of statewide importance, unique farmland, and farmland of local importance, as defined pursuant to the United States Department of Agriculture’s land inventory and monitoring criteria, as modified for California, and grazing land. “Grazing land” means land on which the existing vegetation, whether grown naturally or through management, is suitable for grazing or browsing of livestock.

(d) “Department” means the Department of Conservation.

(e) “Interim Farmland maps” means those maps prepared by the department for areas that do not have the current soil survey information needed to compile Important Farmland Series maps. The Interim Farmland maps shall indicate areas of irrigated agriculture, dry-farmed agriculture, grazing lands, urban and built-up lands, and any areas committed to urban or other non-agricultural uses.

(f) “Important Farmland Series maps” means those maps compiled by the United States Soil Conservation Service and updated and modified by the department’s Farmland Mapping and Monitoring Program pursuant to Section 65570.

(g) “Local open-space plan” means the open-space element of a county or city general plan adopted by the board or council, either as the local open-space plan or as the interim local open-space plan adopted pursuant to Section 65563.

(h) “Open-space land” means any parcel or area of land or water that is devoted to an open-space use as defined in this section, and that is designated on a local, regional, or state open-space plan as any of the following:

(1) Open space for the preservation of natural resources, including, but not limited to, areas required for the preservation of plant and animal life, including habitat for fish and wildlife species; areas required for ecologic and other scientific study purposes; rivers, streams, bays, and estuaries; and coastal beaches, lakeshores, banks of rivers and streams, and watershed lands.
(2) Open space used for the managed production of resources, including, but not limited to, forest lands, rangeland, agricultural lands, and areas of economic importance for the production of food or fiber; areas required for recharge of groundwater basins; bays, estuaries, marshes, rivers, and streams that are important for the management of commercial fisheries; and areas containing major mineral deposits, including those in short supply.

(3) Open space for outdoor recreation, including, but not limited to, areas of outstanding scenic, historic, and cultural value; areas particularly suited for park and recreation purposes, including access to lakeshores, beaches, and rivers and streams; and areas that serve as links between major recreation and open-space reservations, including utility easements, banks of rivers and streams, trails, and scenic highway corridors.

(4) Open space for public health and safety, including, but not limited to, areas that require special management or regulation because of hazardous or special conditions such as earthquake fault zones, unstable soil areas, flood plains, watersheds, areas presenting high fire risks, areas required for the protection of water quality and water reservoirs, and areas required for the protection and enhancement of air quality.

(5) Open space in support of the mission of military installations that comprises areas adjacent to military installations, military training routes, and underlying restricted airspace that can provide additional buffer zones to military activities and complement the resource values of the military lands.

(6) Open space for the protection of places, features, and objects described in Sections 5097.9 and 5097.997 of the Public Resources Code.

(i) “Priority land” means any part, or all of a category of, agricultural or open space lands, identified by a local government in that local government’s agricultural land component of its open-space element or agricultural land element of the general plan, that are prioritized for conservation, taking into consideration the need to balance competing land uses.

(Amended by Stats. 2017, Ch. 434, Sec. 4. (SB 732) Effective January 1, 2018.)
State of California

GOVERNMENT CODE

Section 65562.5

65562.5. On and after March 1, 2005, if land designated, or proposed to be designated as open space, contains a place, feature, or object described in Sections 5097.9 and 5097.993 of the Public Resources Code, the city or county in which the place, feature, or object is located shall conduct consultations with the California Native American tribe, if any, that has given notice pursuant to Section 65092 for the purpose of determining the level of confidentiality required to protect the specific identity, location, character, or use of the place, feature, or object and for the purpose of developing treatment with appropriate dignity of the place, feature, or object in any corresponding management plan.

(Amended by Stats. 2005, Ch. 670, Sec. 5. Effective October 7, 2005.)
5097.9. No public agency, and no private party using or occupying public property, or operating on public property, under a public license, permit, grant, lease, or contract made on or after July 1, 1977, shall in any manner whatsoever interfere with the free expression or exercise of Native American religion as provided in the United States Constitution and the California Constitution; nor shall any such agency or party cause severe or irreparable damage to any Native American sanctified cemetery, place of worship, religious or ceremonial site, or sacred shrine located on public property, except on a clear and convincing showing that the public interest and necessity so require. The provisions of this chapter shall be enforced by the commission, pursuant to Sections 5097.94 and 5097.97.

The provisions of this chapter shall not be construed to limit the requirements of the Environmental Quality Act of 1970, Division 13 (commencing with Section 21000).

The public property of all cities, counties, and city and county located within the limits of the city, county, and city and county, except for all parklands in excess of 100 acres, shall be exempt from the provisions of this chapter. Nothing in this section shall, however, nullify protections for Indian cemeteries under other statutes.

(Repealed and added by Stats. 1976, Ch. 1332.)
5097.993. (a) (1) A person who unlawfully and maliciously excavates upon, removes, destroys, injures, or defaces a Native American historic, cultural, or sacred site, that is listed or may be eligible for listing in the California Register of Historic Resources pursuant to Section 5024.1, including any historic or prehistoric ruins, any burial ground, any archaeological or historic site, any inscriptions made by Native Americans at such a site, any archaeological or historic Native American rock art, or any archaeological or historic feature of a Native American historic, cultural, or sacred site, is guilty of a misdemeanor if the act was committed with specific intent to vandalize, deface, destroy, steal, convert, possess, collect, or sell a Native American historic, cultural, or sacred artifact, art object, inscription, or feature, or site, and the act was committed as follows:

(A) On public land.

(B) On private land, by a person, other than the landowner, as described in subdivision (b).

(2) A violation of this section is punishable by imprisonment in the county jail for up to one year, by a fine not to exceed ten thousand dollars ($10,000), or by both that fine and imprisonment.

(b) This section does not apply to any of the following:

(1) An act taken in accordance with, or pursuant to, an agreement entered into pursuant to subdivision (f) of Section 5097.94.

(2) An action taken pursuant to Section 5097.98.

(3) An act taken in accordance with the California Environmental Quality Act (Division 13 (commencing with Section 21000)).

(4) An act taken in accordance with the National Environmental Policy Act of 1969 (42 U.S.C. Sec. 4321 et seq.).

(5) An act authorized under the Z’berg-Nejedly Forest Practice Act of 1973 (Chapter 8 (commencing with Section 4511) of Part 2 of Division 4).

(6) An action taken with respect to a conservation easement in accordance with Chapter 4 (commencing with Section 815) of Division 2 of the Civil Code, or any similar nonperpetual enforceable restriction that has as its purpose the conservation, maintenance, or provision of physical access of Native Americans to one or more Native American historic, cultural, or sacred sites, or pursuant to a contractual agreement for that purpose to which most likely descendents of historic Native American inhabitants are signatories.

(7) An otherwise lawful act undertaken by the owner, or an employee or authorized agent of the owner acting at the direction of the owner, of land on which artifacts,
sites, or other Native American resources covered by this section are found, including, but not limited to, farming, ranching, forestry, improvements, investigations into the characteristics of the property conducted in a manner that minimizes adverse impacts unnecessary to that purpose, and the sale, lease, exchange, or financing of real property.

(8) Research conducted under the auspices of an accredited postsecondary educational institution or other legitimate research institution on public land in accordance with applicable permitting requirements or on private land in accordance with otherwise applicable law.

(Added by renumbering Section 5097.995 by Stats. 2004, Ch. 286, Sec. 9. Effective January 1, 2005.)
