USE

The Model 25 was a prototype engine intended to provide full-service capabilities in both structural and wildland fire fighting areas based on its design and equipment complement. CAL FIRE placed 3 into service for field operational evaluation. No additional 25 models were acquired. Based on its design and current equipment complement, Model 25 is a full-service vehicle. It has been built specifically to address the need for a specialized emergency vehicle to provide full-service capabilities in both structural and wildland fire fighting areas. CAL FIRE has 3 Model 25 engines on the frontlines.
