

Our Mission

The Wood Products and Bioenergy Program seeks to maintain and enhance the wood products infrastructure of California to support healthy resilient forests along with the people and ecosystems that depend on them.

Our Vision

Support the creation of a robust and diversified wood products industry to facilitate the economic and sustainable management of California's forests.

Our Interests

Existing and emerging technologies related to:

- Solid wood and chip product processing and manufacturing
 - Bioenergy, including power generation and fuel production
 - Forest-related workforce development
-
