

Timber Harvest Plan compliance with the JDSF Forest Management Plan

Silviculture

Complies with FMP	Not Applicable	FMP Direction	THP Language and Comments
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Planned silvicultural methods- designated in FMP and retention levels set in Option a – pp 72-77	Item 14
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Accommodate research and demonstration needs.	Section IV
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Maintain 10% hardwoods on west side, 15% east side- p 107	Item 14
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Identify Special Concern Areas ie. neighbor buffers, State Parks STA, etc. and required buffers – pp 83, 280	Item 7b, Item 14
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Implement BMPs for SOD, Pitch Canker – pp 123-129, 279	Item 15
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Herbicide use restrictions, IVM for invasive weeds – pp 93-95, 259-260	Item 14, 38
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Comply with Fire Protection Plan – pp 121, 279	Item 14 Refer to Fire Protection Plan
<input type="checkbox"/>	<input type="checkbox"/>		

Watercourse Protection

Complies with FMP	Not Applicable	FMP Direction	THP Language and Comments
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Watercourse Protection Prescriptions – pp 96-97	Item 26
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Class I and II WLPZ will be managed for late seral forest characteristics – p 315	Section III- Item 26
<input type="checkbox"/>	<input type="checkbox"/>		

Roads

Complies with FMP	Not Applicable	FMP Direction	THP Language and Comments
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Utilize and comply with the Road Management Plan – p 86, 258	Item 24, 25
<input checked="" type="checkbox"/>	<input type="checkbox"/>	New culverts sized for 100-year storm events – p 100	Item 24, 25
<input type="checkbox"/>	<input type="checkbox"/>		

Wildlife

Complies with FMP	Not Applicable	FMP Direction	THP Language and Comments
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Retain qualifying old growth – p 265	Item 14
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Project-specific scoping process to identify special status species likely to occur in the affected environment of a project area and the potential habitat impact from the activity either individually or cumulatively – p 276	Item 32
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Surveys will be conducted for special status animal species will be to established protocols, after consultation with federal or state wildlife management agencies as appropriate, or practices commonly accepted by CAL FIRE and DFG for Timber Harvesting Plan review - p 276	Item 32

<input checked="" type="checkbox"/>	<input type="checkbox"/>	Observations of rare, threatened or endangered plants, animals or plant communities will be recorded on Field Survey Forms and copies provided to the DFG California Natural Diversity Database (CNDDDB) – p 276	Item 32
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Specific language for NSO, MAMU, osprey, northern goshawk, Coopers hawk, sharp-shinned hawk, Vaux’s swift, purple martin, Sonoma tree vole – pp267-2171, 103-114	Item 32, Section III, IV
<input type="checkbox"/>	<input checked="" type="checkbox"/>	MAMU habitat assessment areas – Russian Gulch, Lower Big River, Lower Hare Creek, Mitchell/Jughandle Creek – pp 111-112, 269	Items 14, 32
<input checked="" type="checkbox"/>	<input type="checkbox"/>	MAMU potential habitat	Item 32, Section III, V

Botanical

Complies with FMP	Not Applicable	FMP Direction	THP Language and Comments
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Scope for sensitive species and their habitat that may be affected by the project using JDSF plant list, CNDDDB, etc. – pp 115-116, 271-272	Item 32
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Survey using CDFW protocols – p 116	Item 32
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Observations of rare, threatened, or endangered plants or plant communities will be recorded on field survey forms and copies provided for the DFG California Natural Diversity Database – p 116	Item 32
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Pygmy forest protections – multiple pages	
<input type="checkbox"/>	<input type="checkbox"/>		

Archaeology

Complies with FMP	Not Applicable	FMP Direction	THP Language and Comments
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Maintain database of known heritage resources and conduct 5-year records check with NWIC – p 54	Last update: 2017
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Conduct archaeological survey prior to timber operations - p 54	Section V, complies with FPRs
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Protect all significant heritage resources sites, avoiding where feasible – p 54	Section V
<input type="checkbox"/>	<input type="checkbox"/>		

Recreation

<input type="checkbox"/>	<input checked="" type="checkbox"/>	Harvest within 300’ of campgrounds and day-use areas will consider designated use – p 273	Item 38, Section IV
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Consider and mitigate project effects on casual and informal recreation uses by Forest neighbors – p 357	Section IV
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Access routes to high-use recreation areas will have slash abatement within 50’ of the road – p 275	Item 30
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Active operations within vicinity of occupied campgrounds and picnic areas will be limited to weekdays and non-holidays – p 273	Item 38
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Noise abatement mitigation will be included in any timber sale within 1,000’ of campground for operations between July 1 and Labor Day – p 273	Item 38
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Address Road and Trail Corridor Special Concern Area – p 280	Section IV

<input type="checkbox"/>	<input checked="" type="checkbox"/>	Evaluate need to mitigate visual impacts of even-aged timber harvest adjacent to roads, trails, and rec. areas - p 274-276	Section IV
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Post and maintain area closure signs during timber operations – p 279	Conducted prior to start of operations by Timber Sale Administrator.
<input type="checkbox"/>	<input type="checkbox"/>
