

Hired Equipment Program Supplier Participation Manual 2022 Revision Guide

The 2020 implementation of the new Hired Equipment Program Supplier Participation Manual was successful, and brought with it some lessons learned. Based on these lessons learned, some clarifications have been introduced to the Manual. The table below defines these clarifications. The pages that follow include those pages which have been revised, in which the edited areas are highlighted yellow to facilitate review.

Revision Matrix	
Page	Revision Description
Cover	Bottom row, "July 2021" changed to "January 2022"
11	The ACORD 25 form is the preferred document for proof of Insurance
21	Added "or approved time keeping document" Removed "Shift ticket"
22	Added Operational Briefing language Removed replacement and strike through verbiage: All repairs and replacement are the responsibility of the Supplier, to be made at the Supplier's expense. Repair or replacement must be completed within 24 hours of breakdown.
26	Added Service Vehicle Module to Fireline Equipment
37	Updated for fire resistive thread "Protective fire curtains inside of cab on sides, front, and rear; constructed from Gentex 1014 Aluminized Fabric stitched with fire resistive thread and fire resistive Velcro (FR) Cotton fiber webbing or equivalent materials." Updated extinguisher language to match throughout
40	Updated Ext language Added Shovel Axe / Pulaski
44	Added May be required to pump foam or retardant type water additives except for those equipped with a fire rated pump. CAL FIRE will provide the supplier the ability to flush their tank and equipment.
50	Combined rating 1000-2499 replacing 1000-1499 there was only a \$48-dollar difference. Increased rates to meet industry standard.

Revision Matrix
